Anything's AutoPot-able!

Because AutoPot Watering Systems allow plants to control their own irrigation they can perfectly satisfy the needs of absolutely any variety. It's power-free, automatic plant watering at its very best!

No more daily watering, systems can be left unattended for weeks

No need for electricity, pumps, timers, or mains water pressure

Gravity pressure from a water tank is all that's required

Environmentally sustainable, no water is lost to the ground

Can be used to grow any crop variety; edible or ornamental

Explore The Range!

AutoPot Watering Systems available now from Medwyn's Of Anglesey

“I STRIVE FOR PERFECTION BUT SETTLE FOR EXCELLENCE”

‘Perfection is achieved, not when there is nothing more to add, but when there is nothing left to take away’

Welcome to our 2024 – 2025 Seed, Plant and Sundries catalogue. Firstly, I would like to thank all our existing loyal customers, we hope you have enjoyed some measure of success with our different products as well as the plants grown from our seed. If you are new to me, I look forward to hearing from you. Please do visit our website and online shop as it could contain new cultivars as well as other items that I select as and when they come on the market which may not be available in our printed seed catalogue.

As a Trial, and by request, we have included Leek and Onions for Collection in One litre pots for 2025. Full details inside.

Every year we source new varieties of vegetables, and these will be highlighted with a star alongside them. Our Premium range of Plants continue to be very popular in our strong carboard boxes giving the plants the best possible outcome of being delivered in first class condition next day. They are grown in the largest size Jiffy Seven pellets and each individual plant is wrapped up in a polythene bag and glued to the box to minimise any damage. On receipt they will be ready for potting on into 4- or 5-inch pots. Seedlings will be posted in plastic containers to alleviate any damage in transit.

Two free packets of a potential new culinary and/or show bench variety will be given with every order over £150.00, placed before 1st March 2025. Seed orders will be posted to customers as soon as possible but could be delayed until November/December after most

fresh seed stocks are to hand. All orders received by mid-December will be posted before Christmas. No seed will be posted out during the Christmas period from **December the 16th 2024 to January 6th 2025. Please note our office hours are between 9am and 5pm.**

All our seed are heat-sealed in Aluminium Foil Mylar Vacuum Bags to ensure they remain fresh for as long as possible and sent out in Padded Envelopes. I am strictly Mail Order and have no retail outlet as some people have realised to their disappointment. The sale of all plants and Allium bulbs are restricted to the UK only. Some of our seed may be chemically treated so do take sensible precautions.

We try and respond to all orders as soon as possible. We also accept all major credit and debit cards. **Due to increased banking charges, we are unable to accept cheques under the value of £10.00.** I hope you enjoy browsing through this seed catalogue and I look forward to receiving your order soon. My Telephone number, as well as my email and Online Shop address, can be found on the back cover of this catalogue. Please make sure that you fill in the correct P&P columns for Seed and Sundries on the order form, if in doubt regarding charges, email or ring me during office hours. Don't forget to regularly check our Online Shop for new additions.

Thank you for your custom and do enjoy growing, eating, and showing your vegetables in 2025.

Thank you from the team at Medwyns.

BROAD BEANS

ITEM 3002 | MASTERPIECE GREEN LONGPOD

Broad Bean Masterpiece Green Longpod is a reliable and popular long podded variety which has 6 or 7 flavoursome beans per pod. The tender green beans are excellent for freezing.

Price: £1.60 for 20 beans

ITEM 3003 | DUET

A very compact variety producing small, tasty white beans, typically 12-15mm in size. Approximately 4-5 beans per pod. Suitable for the small garden or pots on the patio. Perfect for the kitchen.

Price : £2.90 for 30 seed

ITEM 3004 | AQUADULCE

The standard broad bean variety for overwintering. Very good cold tolerance, semi compact plants with high yields of pods containing 6-7 white beans per pod. Grows to approximately 90cm in height. A very early maturing variety. Sow October – November or February to March.

Price: £2.00 for 20 beans

ITEM 3005 | EXHIBITION LONGPOD WHITE BEANS

Our own re-selected stock from the old show-winning variety Bunyards Exhibition. An ideal variety for the show bench and culinary use. Heavy crops of extra-long pods of white seeded excellent flavoured beans. The pods can grow to 30cm in length and can contain up to 10 beans per pod.

Price: £2.20 for 10 beans.

FRENCH BEANS

ITEM: 3009 | RESELECTED EXHIBITION, CLIMBING FRENCH BEAN (Prince)

A top-quality exhibition and kitchen variety. Plant out at 18 inches apart and leave each plant to climb up at least four-foot-long canes. Stop all leading shoots as they get to the top of the cane. Produces an enormous crop from one plant. A variety guaranteed to supply you with plenty of top quality show beans measuring between seven and eight inches in length.

Price: £3.10 for 10 beans

ITEM: 3010 | EXHIBITION DWARF FRENCH BEAN, HAWKSURRY WONDER

This variety is unbeatable on the show bench winning at all the major shows and is perfect for the kitchen having excellent flavour. The plant grows to about 18 inches in height and is full of long, tender, narrow, flat beans, some that grow up to 12 inches in length. Allow approximately ten weeks from sowing to showing.

Price: £3.50 for 10 beans

ITEM 3011 | BLUEVETTE Dwarf French Bean ^{NEW}

A bluish-purple variety that has an upright and compact plant habit, easy to grow and falls into my 10 weeks vegetable bracket. Sow today and eat in 10 weeks time making it easy to have a couple of crops in any given year. Start from April to the end of August. Lovely purple colour that turns green after cooking.

Price: £3.00 for 20 beans

**ITEM: 3270 | VOLTAGE (Wax Bean yellow podded)**

An excellent dwarf wax bean with vibrant yellow pods. Upright plant habit makes for easy harvest, with good presentation of pods. The uniform pods are typically 14-15cm x 9.5-10mm.

Price: £2.30 for 10 beans

RUNNER BEANS**ITEM: 3007 | RESELECTED EXHIBITION VARIETY – STENNER (re selection from Enorma)**

The only variety to really grow for exhibition which is also first class for kitchen use. It regularly produces pods between 15 and 19 inches in length whilst still retaining its refined smooth shape. The beans have a very short handle and, when well grown, are deep green in colour. A variety that was constantly re selected by the late Brython Stenner from the old Enorma. Rarely beaten.

Price: £2.55 for 10 beans

ITEM: 3008 | TENDERSTAR

A unique red and pink bicolour variety from 15 years of British breeding. Runner Bean 'Tenderstar' combines the valuable characteristics of French beans with those of runner beans, resulting in extra smooth, very fleshy, stringless pods with an exceptionally tender texture and true runner bean flavour. Being virtually self setting, this prolific variety produces masses of 20cm (8") long pods throughout the summer, whatever the weather.

Price: £2.20 for 10 beans

**ITEM: 3237 | BRITANNIA
Exclusive to Medwyns re selection from Enorma**

A classic Runner Bean that grows easily to 17 inches in length, I envisage this one being a major challenge to the well established Stenner. Intricate crosses were made by Tozers to achieve this bean.

Price: £2.10 for 10 beans

**ITEM: 3200 | LONGEST RUNNER BEAN (Jescot-Long UN)**

A very special fleshy bean that's been reselected for sheer length. Definitely not one for the quality classes, but is guaranteed to win in the 'Longest Runner Bean class'. A delicious fleshy bean to eat when picked young.

Price: £4.50 for 8 beans

ITEM: 3208 | POLESTAR Stringless

Salmon-coloured edible flowers come out in big numbers which turn into bunches of stringless beans reaching an impressive 25cm (10in) in length. Pick them young if you like tender and sweet beans as well as a continuous crop. Polestar keeps its vigour throughout the season and the flowers set very easily whatever the weather and when pollinator (bees and flies) numbers are low.

Price: £1.80 for 10 beans

BEETROOT

ITEM: 3012 | PABLO F1 RHS Award of Merit 2005

A banker on the show bench as well as in the kitchen. It possesses the best skin finish possible coupled with an exceptionally uniform round shape. It has a particularly attractive red internal coloration and stands for a very long period without going woody.

Price: £2.70 for 200 seed

ITEM: 3013 | CARDEAL F1

A variety that I introduced a few years ago possessing a lovely globe shape with intense erect tops. The taste is really sweet owing to the very high sugar content. This is proving to be a winner on the show benches.

Price: £2.60 for 200 seed

ITEM: 3017 | RESELECTED EXHIBITION, LONG BLACK BEET Reselected Own seed

Undoubtedly the best variety for the long beetroot and Tap Root classes, it grows to an exceptional length with almost black coloured flesh and hardly any white rings. I have been re selecting this variety for many years and have almost eliminated the screwing or twisting action similar varieties seem to have.

Price: £4.20 per packet

BROCCOLI SPROUTING

ITEM: 3019 | RUDOLPH

A very early variety of high quality, well coloured, good sized purple spears. Very high yielding variety for harvest from November to February.

Price: £2.30 for 40 seed

ITEM: 3020 | BROCCOLI STEM - HIRZIA F1

New sweet stemmed broccoli, a taste sensation! Why wait until spring for sprouting broccoli? Hirzia will crop from July and produce the main head like regular broccoli, which then splits into spears. Tasty florets on edible spears that have side shoots offering more florets to harvest. Sow March-June, Harvest Late July-Oct.

Price: £4.05 for 40 seed

BRUSSEL SPROUTS

ITEM: 3021 | BRIGHT F1

Early to mid-season variety maturing from mid-October to mid-November, approximately 175 days. Produces a vast amount of smooth round buttons per stem. Very good holding ability until mid-November and very good lodging resistance. A tall plant with suitability for use as sprout tops. An excellent variety.

Price: £3.05 for 40 seed

ITEM: 3022 | TRAFALGAR F1

A very reliable late mid-season variety (mid-November to mid-January). It produces lots of medium sized, sweet & crunchy sprouts that don't have a bitter taste. Brussels sprouts Trafalgar F1 is tall but sturdy and has been bred in the UK so is very hardy & well suited to our climate.

Price: £3.05 for 40 seed

ITEM: 3023 | BREL F1

A Mid Season Variety that matures from November and should be ready for your Christmas dinner. A tall variety with a large number of buttons per stem giving a high yield. Healthy round buttons with a sweet mild taste. Plant habit features small tops and performs well, even on less fertile soils.

Price: £3.05 for 40 seed

ITEM: 3024 | BRECHIN F1 *NEW*

Christmas variety maturing from mid-December to late February, approximately 225 days. High yielding mild non bitter taste. Produces many uniform-sized deep green buttons. Very good holding ability and disease resistance.

£3.05 for 40 seed

ITEM: 3273 | CRYPTUS F1

This is another brilliant club root resistant brassica that will allow you to harvest a bumper crop of sprouts through December including the Christmas period. If you have club root on you land or not, this is a brilliant new variety.

Price £4.10 for 40 seed.

CABBAGE RED

ITEM: 3025 | ROVITE F1

A mid-season, 120 day, large heading red cabbage for fresh market and short term storage. Suitable for both 1Kg and 3Kg head production. Can be used for overwintered module raised crops.

Price: £2.45 for 40 seed

ITEM: 3027 | ROZERA F1

A new large headed type Red Cabbage with excellent internal structure and having a bright deep red colour. There is very little white within the internal structure. Given adequate space, the heads can easily grow to over 3 kilos. This will certainly make its mark on the show bench.

Price: £2.65 for 40 seed

ITEM: 3272 | LODERO F1 (Club Root Resistant)

Clubroot-resistant, maincrop variety typically maturing after 135 days from transplanting (so that makes it same maturity as Ruby Perfection F1). Good storage potential. A potential winner on the show bench in the Red Cabbage Class.

Price: £3.10 for 40 seed

CABBAGE GREEN, SUMMER/AUTUMN

ITEM: 3030 | KILASTOR F1 *NEW*

This replaces Kilaton that has been withdrawn by the breeder. A high-yielding variety with very good clubroot resistance. It is also resistant to White Blister. Provides very uniform and reliable crops. Features good long-term storage capabilities. Attractive external green colour. The heads are large and smooth and weigh between 2.5 and 4Kg. Excellent for making Coleslaw.

Price: £4.20 for 30 seed

ITEM: 3223 | CAMPBELL F1 *NEW*

Large heading, late maturing, 145-day, white cabbage which would be perfect for the Autumn Shows. Excellent internal structure for coleslaw production. Medium resistance to thrips, oedema and Phytophthora storage rot. Suitable for medium to long-term storage until late June.

Price: £2.90 for 40 seed

ITEM: 3031 | SIR F1

A mid-season primo-type cabbage which has a very deep green colour. A particularly high quality cabbage with a truly exceptional taste. Not a large type but will grow to over 0.5 kg (1lb) in weight. Customers rave about its flavour.

Price: £2.60 for 40 seed

ITEM: 3033 | BRIGADIER

A wonderful cabbage, capable of growing to a large size given adequate space. Superb shape with a beautiful leaf formation and a solid heart. This will be a winner on the show bench for its sheer quality.

Price: £2.60 for 40 seed

ITEM: 3035 | COMPASS F1

A Japanese bred cabbage that can grow to a very large size. This is a replacement for Globemaster. A top quality cabbage for the kitchen or the show bench.

Price: £2.60 for 40 seed

**ITEM: 3036 | CHANCELLOR**

A large round solid headed variety that keeps well without splitting. Superb taste and certain to be amongst the cards at next summer's Shows.

Price: £2.60 for 40

**ITEM NO 3259 | CABBICE**

Super sweet Round green cabbage with a unique intense sweet flavour with crisp thick leaves giving you a crunchy texture similar to Iceberg lettuce and would be perfect served raw in salads. Grows up to 2kg in weight. Sow February to July to harvest from May to October. Plant out March to August.

Price £2.60 for 40 seed

**POINTED CABBAGE Summer/Winter****ITEM: 3037 | ANTELOPE F1**

A hybrid greens variety, giving a large number of usable leaves per head. Good frost tolerance for winter production. Good vigour enables summer and autumn production on less fertile soils. Will also heart up if left to mature.

Price: £2.60 for 40 seed

**ITEM: 3028 | REGENCY F1**

An excellent new hybrid variety producing compact 400 to 500 gram heads. Healthy base, good holding capability without splitting as well as having excellent flavour. Harvest June to October but can be overwintered from an autumn sowing depending on location and prevailing conditions.

Price: £2.60 for 40 seed

**ITEM: 3029 | ADVANTAGE F1**

A top performing variety suited to greens for spring, summer and autumn cropping and hearted production in summer and autumn. Exceptional results during the autumn cropping period. This variety is suitable for use under glass or in a polytunnel.

Price: £2.60 for 40 seed

CABBAGE Autumn/Winter

ITEM: 3038 | LUCAS F1 *NEW*

Large heading, late maturing, 145-day, white cabbage for processing after storage. Can be stored until late June. This cabbage gives top quality heads with excellent internal structure making it perfect for your home Coleslaw. This will make a brilliant selection for your shows during September and October. It also has some resistance to thrips.

Large heading, late maturing, 145-day, white cabbage for processing after storage. Can be stored until late June. This cabbage gives top quality heads with excellent internal structure making it perfect for your home Coleslaw. This will make a brilliant selection for your shows during September and October. It also has some resistance to thrips.

Price: £2.80 for 40 seed

CABBAGE SAVOY

ITEM: 3039 | RIGOLETO F1

An excellent long-standing winter type for use from November through to February. Medium sized, round, dark green heads with very few outer leaves and quite resistant to frost.

Price: £2.60 for 40 seed

ITEM: 3040 | SERPENTINE F1

Early 90-110 day variety suitable for harvest from the end of July to the end of September. Can also be sown to mature from the end of June to early July from a polythene covered crop. Improved level of resistance to Xanthomonas. Striking bright green medium to large sized heads.

Price: £2.60 for 40 seed

CABBAGE Giant

ITEM: 3238 | HEIRLOOM CORNISH VARIETY

Our own selection from WORLD RECORD stock

this is the giant cabbage of all cabbages, an open-pollinated strain that the giant vegetable growers use with the capabilities to grow to over 100 lbs in weight. this is our selection of the genuine Cornish giant. a real heavyweight given the space to grow at around 2 metre square. sow from November to January in a propagator and grow on in a frost-free greenhouse.

Price: £5.20 for 40 seed

ITEM: 3041 | BRUNSWICK

An open pollinated old variety and you will need a barrow to move it around when harvested. Anything over 10kg (22lbs) is a reasonable expectation on well cultivated ground.

Price: £2.70 for 40 seed

ITEM: 3043 | KLIMARO F1

A vibrant and attractive Red Cabbage with vivid red colour both inside and out. It has also produced the World's Largest Red Cabbage at 23.2kg (51.15lbs) which set a new World Record in 2016 at Malvern by Dave Thomas Cornwall. The main strengths of Klimaro are its long term storage and internal quality which it maintains even after a long term storage period.

Price: £4.10 for 30 seed

**CALABRESSE****ITEM: 3221 | IRONMAN F1**

A vast improvement on the older varieties. It possesses the usual advantages of a hybrid - vigorous habit with excellent uniformity and high yields of larger than normal heads.

Price: £2.20 for 40 seed

**ITEM: 3222 | MONCLANO F1 (Club root resistant)**

Monclano is a club root resistant variety which produces a firm, domed head with a good standing ability. To be planted in June to July.

Price: £4.20 for 40 seed

**ITEM: 3251 | PARTHENON F1**

A large vigorous plant that produces deep, domed heads with a very fine bead and having superb taste. Sow from mid-February until the end of May to harvest from July to October. Do not sow after September. Did really well for us on our displays in 2009.

Price: £2.70 for 40 seed

**ITEM: 3257 | STICCOLI**

A hybrid of Broccoli and Chinese kale. Produces green broccoli spears on edible stems which taste similar to asparagus. High in vitamins including A and C plus other minerals. During growth it's important to pinch out the first head at an early stage as it encourages the side shoots to develop. Transplant March June to harvest June through to October.

Price: £2.75 for 40 seed

**CAPSICUM Sweet Pepper**

Unless you live in the south of the country, it's better to grow Peppers and Chillies indoors; initially in a slightly heated greenhouse but afterwards a cold greenhouse or polytunnel will suffice.

ITEM: 3042 | SOLARIO F1 *NEW*

A bright red Blocky variety that is easy to grow, an early maturing sweet pepper that is ideal for an unheated greenhouse or Polytunnel. Good disease resistance.

Price: £2.80 for 5 seed

ITEM: 3044 | CAMPOR F1 *NEW*

As Item 3042 but bright yellow Blocky variety that is easy to grow, an early maturing sweet pepper that is ideal for an unheated greenhouse or Polytunnel. Good disease resistance.

Price: £2.80 for 5 seed

CAYENNE PEPPERS Chilli

ITEM: 3045 | CAROLINA REAPER F1

Currently the World Record holder for the hottest chili with a SHU reading of 1.5 to 2 million. Once you get over the extreme heat there is a fruity-like flavour, giving a sweet-hot combination. Fruit is typically 5cm long by 3cm wide.

Price £4.00 for 5 seed

**ITEM: 3046 | BASKET OF FIRE**

A prolific-fruiting basket/container chilli with an abundance of hot little fruits on compact, plants. The fruits mature from deep purple through cream and orange to mature to a bright red. Basket of Fire's unique habit makes it a perfect choice for pots and containers. The plants have a good tolerance to cooler weather, which means they go on cropping well into the autumn.

Price: £2.70 for 10 seed

**ITEM: 3047 | ARMAGEDDON F1**

An extremely hot chili that's reputed to have a scoville unit reading in excess of 1.3 million. The round to pointed shaped fruits feature a distinctive tail and mature from lime green to bright red. Maximum fruit size is 5cm x 3cm but often the overall size is smaller. Needs high temperatures to germinate with the optimum being 27-32°C. Please take care when handling fruit.

Price: £3.70 for 5 seed

**ITEM: 3049 | TUDOR'S FIRE *NEW***

First found by Roy Tudor about 10 years ago as a chance variation on Chili "Prairie Fire". It has been selected for a decade by Ivor Mace. This compact chili will bring its medium-heat fruit through September/October. It makes a nice compact plant in a 2-litre pot, but a 3-litre pot will grow a real show plant whose fruit stands up like candles. It has been named to celebrate the long life of the Welsh Vegetable grower Roy Tudor.

Price: £3.50 for 8 seed

CARROTS Long

ITEM: 3050 | **OWN SELECTION LONG CARROT**

Reselected from New Red Intermediate

Without a doubt, this re selected variety is the finest carrot available for exhibiting in the long class. Possesses all the finer attributes the judges are looking for in a good set of long carrots. In order to maintain this high standard, over 20 carrots are planted each autumn which ensures that the selection, given the right cultivation, will remain a winner for the foreseeable future.

Price: £4.50 for a minimum of 100 seed

CARROTS other than long

ITEM: 3048 | **VOLCANO F1**

Late maincrop variety, producing smooth-skinned roots. This main season Nantes hybrid produces 8-9" cylindrical roots with good internal and external colour. High resistance to cavity spot, crown disease and late-season re-growth. Very strong, tapered roots, with exceptional resistance to breakage and splitting with a vigorous strong growing foliage.

Price: £2.70 for a minimum of 200 seed

ITEM: 3051 | **SV5300DN F1 "NEW"**

Main season Nantes Berlicum carrot with a similar shape to Sweet Candle. medium to dark orange colour with a cylindrical shape. Smooth, bulky root with good cavity spot tolerance in trials. Suitable for processing and deep freezing.

Price: £2.90 for 200 seed

ITEM: 3053 | **SPEEDO F1**

A fast growing early Maincrop produces Uniform high quality smooth roots with a distinct stump end. Average length 8 inches with a diameter of 1.5 inches.

Price: £2.70 for a minimum of 200 seed

ITEM: 3054 | **OCTAVO F1**

A carrot capable of challenging Sweet Candle with a smooth skin finish, a well stumped end which develops much earlier than Sweet Candle. Very uniform in shape and with a bright orange colour. The carrots in the picture were sown on the 20th May and were the first lot pulled from the bed mid September.

Price: £2.70 for a minimum of 200 seed

ITEM: 3055 | **SWEET CANDLE**
Sourced and introduced by Medwyns

What can I say about this variety? It's simply been astonishing on the show benches winning at National and Branch level. I have the finest stock possessing the largest graded seed, from 2.4 to 2.6mm, that gives you superior germination.

Price: £2.90 for a minimum of 200 seed

ITEM: 3056 | GOLDEN NUGGET F1

Late maincrop yellow-rooted variety with sweet, juicy flavour and crunchy texture. Attractive internal and external presentation Uniform, long roots with high quality skin finish. Good results in processing and freezing assessments.

Price £2.70 for 200 seed.

ITEM: 3057 | FLYAWAY F1

A true stump variety in the traditional manner with heavy shoulders, good form culminating in a truly rounded bottom. It shows good tolerance to the carrot root fly; it is not resistant but is not attractive to the egg-laying flies and the maggots grow poorly on it.

Price: £2.50 for a minimum of 200 seed

ITEM: 3058 | COVENTRY F1 *NEW*

Exciting new Chantenay variety, this is a typical style of carrot that used to win many years ago but with far superior colour and Condition. Coventry produces highly uniform, smooth, and attractive roots with good standing ability. Healthy upright foliage. Approximately 96 days from sowing to maturity.

Price: £3.20 for a minimum of 200 seed

ITEM: 3059 | SHORT AND SWEET

Easy to grow and full of vitamins, this rich, sweet, flavoured carrot has 4" roots that are bright orange to the centre. It was bred especially for heavy or poor soil and can also be grown in large containers. Ideal for the Chantenay type class with a good stump end.

Price: £2.00 for a minimum of 200 seed

ITEM: 3062 | CASCADE F1

A hybrid Chantenay variety, very suitable for the Show bench. Cascade produces healthy foliage and smooth, bright, and uniform roots. Approximately 100 days from sowing to maturity. I expect to see this one winning many awards.

Price: £3.20 for a minimum of 200 seed

ITEM: 3063 | PURPLE SUN F1

Conical Nantes type. Intense purple colour with a pink centre. Adds colour to salads and the like when eaten raw. Approximately 135 days from sowing to maturity.

Price: £2.70 for a minimum of 200 seed.

CAULIFLOWERS Summer and Autumn Varieties

ITEM: 3219 | CONCEPT F1

An outstanding and very large heavy headed type with tight self-wrapping inner leaves offering exceptional protection to the curd. A cauliflower that's been selected under UK conditions to exceed current supermarket specifications for class 1 quality. Excellent drought resistance during hot dry summers as well as performing well during wet ones. Summer/early autumn maturity is 85 to 90 days.

Price: £3.70 for 40 seed

ITEM: 3067 | SV5818AC

This variety is a replacement for Cornell and has proved to be a brilliant cauliflower in every way, even surpassing Cornell in quality. It matures in approximately 80 to 85 days. SV5818AC has been introduced into our cauliflower portfolio for its exhibition qualities. The dense curd is made up of solid florets and performs well from overwinter as well as spring sowings. A lovely smooth heavy domed head

Price: £3.90 for 40 seed

ITEM: 3068 | NARUTO F1

A variety from the same breeder as Boris that's a top quality cauliflower. A large and very vigorous variety with superb head cover with the curd being hard, dense and heavy. Takes 105 to 115 days from sowing.

Price: £3.20 for 40 seed

ITEM: 3069 | FAIRWAY F1

A new variety that replaces Valtos having been a very popular variety for nearly 20 years. There's no doubt that Fairway will make its mark on the show benches in the future. It has a better curd and cover than Valtos and takes between 75 to 90 days to mature from transplanting. A very vigorous grower.

Price: £3.70 for 40 seed

ITEM: 3070 | SOLIDA F1 *NEW*

Solida is a 90 to 100-day variety (from planting to maturity) It has strong vigour so Aicult conditions. It can be sown from the beginning of March through to the end of April for planting mid-March through to mid-June. Can also be October sown.

Price: £4.00 for 40 seed

ITEM: 3071 | SEOUL F1 *NEW*

This variety replaces Sapporo. Summer and autumn variety, 75-85 day type producing exceptionally dense curds. Healthy variety producing very white curds, slightly earlier than Boris F1. Each curd produces a high yield of compact heavy florets with short petioles.

Price: £3.20 for 40 seed

ITEM: 3072 | AVISO F1 AWARD OF GARDEN MERIT RHS

A variety from the same breeder as Boris that's a top-quality cauliflower. A large and very vigorous variety with superb head cover with the curd being hard, dense and heavy. Takes 105 to 115 days from sowing. **(RHS Award of Garden Merit)**

Price: £3.20 for 40 seed

ITEM: 3073 | RAOUL F1 'NEW'

A replacement for Memphis that's no longer available and ready as a late August/September cauliflower. The curds are deep and heavy with plenty of large upright leaves giving good self-protection. This will be even better than Memphis for the show bench. Sow mid-April for early September harvest.

Price: £3.20 for 40 seed

ITEM: 3074 | BORIS F1

The quality of this cauliflower is superb with the expected uniformity of growth and added vigour. It has really large snow-white curds, which are deep and heavy within a large framework of protective leaves. Allow 12 to 13 weeks from sowing to harvest.

Price: £3.20 for 40 seed

ITEM: 3255 | RALEIGH F1

A summer growing Variety with an 80 day growing cycle. Perfect for Multi planting from April May sowings to Harvest Mid July to October. The curds are amazingly well protected even when the heads are fully developed. The florets are well formed giving a nice rounded dome finish. This variety is a regular winner at major shows.

Price: £3.90 for 40 seed

ITEM: 3216 | GRAFFITI F1 AWARD OF GARDEN MERIT RHS 2006

The colour of the curd is phenomenal being a lovely deep lilac and if steamed will retain its colour better than when boiled. The curds are top quality and every bit as good as the white types. Flavour is also superb, you have to grow this one to appreciate how good it really is. This seed is now very expensive.

Price: £3.90 for 20 seed

ITEM: 3079 | CLARIFY F1 (Club root resistant)

A cauliflower with resistance to this devastating brassica disease. Depending on its sowing time this versatile variety matures from late summer to late autumn, producing large, excellent flavoured, solid, deep white heads of uniform quality. Height: 45cm (18"). Spread: 60cm (24").

Price: £3.20 for 20 seed

CAULIFLOWER Late Autumn / Winter Varieties

ITEM: 3018 | CENDIS F1 *NEW*

A cauliflower to grow over the Christmas period - Late autumn variety maturing in late November to early December in Cornwall, 135-150 days, and late December to early January in Lincolnshire, 160-180 days. Performs best from early planting, late June to early July. Produces deep, dense curds which are easy to cut.

Price: £3.70 for 40 seed

ITEM: 3026 | CARBIS F1 *NEW*

This is the variety to grow to fill the gap before the early Summer varieties kick in. Winter Roscoff type, maturing in late March to early April in Cornwall, 250-260 days, and early to mid-April in Kent and Lincolnshire, 260-285 days. Vedis F1 timing with good regrowth in the spring. Good plant vigour and attractive dark leaf. Very healthy foliage; ringspot-resistant gene present.

Price: £3.70 for 40 seed

ROMANESCO

ITEM: 3236 | GITANO F1

Romanesco is increasing in popularity as it's eaten raw with dips. Contains more health giving properties than the regular white cauliflower. Late Summer Autumn variety good against riciness, bracting and red discolouration.

Price: £2.90 for 40 seed

CELERY

Items 3080, 3081 and 3083 are Exclusive varieties to Merwyn's and have all been tested in a propagator to ensure germination is valid for 2024.

ITEM: 3080 | STARBURST F1

This is a cross between 'Moonbeam' and 'Ideal'. It has already won prizes at the highest level. Powerful growth to nearly 5 feet with strong wide stalks having a lovely pink colour around the base.

Price: £4.25 per packet

ITEM: 3081 | EVENING STAR F1

This is a cross between 'Lathom' and 'Ideal'. A superb quality celery to be expected from an F1 hybrid and just a little later maturing than Ideal. Wide strong stalks with a tinge of pink around the base and having plenty of bulk.

Price: £4.25 per packet

ITEM 3083 | MORNING STAR F1

We have some excellent stock of this price winning celery. This has the capacity to produce many petioles, therefore, has the capability of producing some really heavy heads. This has been a winner at the highest level of the NVS shows and has the capability of producing some white petioles or stalks.

Price: £4.25 per packet

ITEM: 3085 | VICTORIA (Self Blanching)

UK-bred F1 celery that's been produced specifically for UK growing conditions. It has an attractive mid-green colour with a tall erect habit and fleshy petioles. Never forget that Celery needs plenty of moisture for a successful crop.

Price: £2.90 per packet

CELERIAC

ITEM: 3082 | MONET F1

Celeriac is a relative of Celery, the difference being you grow **Celeriac** for its roots rather than the greens. An early hybrid variety, suitable for both fresh sales and storage uses. Resistant to bolting; tolerant of Septoria.

Price: £2.90 for 100 seed

CHARD

ITEM: 3211 | RHUBARB CHARD

Becoming much more popular in the vegetable garden as indeed, in some instances, in the herbaceous border owing to its bright red stalks. Rarely if ever seen for sale in the shops so you need to grow it yourself to appreciate the taste. High in Vitamin C, you can eat the stalks, diced and boiled, as well as the leaves which you cook similarly to spinach.

Price: £2.70 per packet

COURGETTES Cucurbita Pepo

ITEM: 3086 | SURE THING F1 (Bush Variety)

A new Bush type courgette that really is a 'Sure Thing' because parthenocarpic plants bear fruit early in cool, cloudy conditions, even when there are no bees or male flowers around. Medium sized fruits are long and very tasty with excellent flavour, brilliant for ratatouille.

Price: £2.70 for 8 seed

An exquisitely flavoured, early cropping courgette, producing good yields of glossy, mid green courgettes throughout summer. RHS Award of Garden Merit winner.

Price: £2.70 for 8 seed

**ITEM: 3090 | ONE BALL F1**

As above but with a Bright Yellow Round fruit.

Price: £2.70 for 8 seed

**ITEM: 3091 | SUNSTRIPE F1**

British bred Courgette 'Sunstripe' produces unique shiny, golden yellow cylindrical fruits with striking white stripes and a wonderful flavour and texture. The compact, open, bushy plants have spineless stems making it easy to harvest the abundant fruits from amongst the green foliage. Height: 45cm (18"). Spread: 90cm (36").

Price: £2.70 for 8 seed

CUCUMBER

ITEM: 3092 | BATALLO F1

This cucumber replaced Kouper which is no longer available. This is an excellent variety and perfect for the show bench and culinary use. A long dark green Dutch type variety that's very uniform, well filled with a short handle.

Price: £4.99 for 5 seed

**ITEM: 3093 | LOUISA F1**

All female (parthenocarpic) variety producing a high yield of uniform, dark green, bitter-free fruits. Very early to crop even under hot conditions. Fruits typically measure 35cm in length and weigh around 500 grams. Resistant to Powdery Mildew, CCU [Scab] and Cca [Target Spot]. Could offer a real challenge to Carmen.

Price £4.50 for 5 seed

**ITEM: 3095 | CARMEN F1 AWARD OF GARDEN MERIT RHS**

The cucumber that's winning at most major shows. Very smooth dark green colour with short handles. An all-female variety and resistant to all known strains of powdery mildew, scab, leaf spot; the fruit are free of bitterness. An unbeatable winner at all National and Provincial shows.

Price: £4.99 for 5 seed

ITEM: 3096 | DELISTAR F1

Grows to about 7 to 8 inches in length with a very pale green colour and having outstanding flavour. Bred to have a thin skin, you bite through it as if there was no skin there, no need to peel.

Price: £4.50 for 5 seed

ITEM: 3097 | CUCUMBER PARTY TIME

An easy-to-grow, all-female parthenocarpic "snack-type" producing three or four delicious fruits at every node every few days. These crunchy bite-sized fruits are perfect lunchbox snacks. 'Party Time' has excellent resistance to powdery mildew and performs across a range of climates but is best grown in an unheated greenhouse or polytunnel. The fruit size is 45gm.

Price: £3.90 for 5 seed

FLORENCE FENNEL

ITEM: 3098 | RONDO F1

A new variety suitable for both summer and autumn cropping. Bulbs are very rounded and white with a high tolerance to Smut. Sow in small pots for potting on or planting outside.

Price: £3.10 for 30 seed

KALE Culinary

ITEM: 3099 | BLACK KALE (NERO DE TOSCANA PRECOCE - BLACK TUSCANY)

A very tasty 'picking' type with long thin strap like leaves, which have 'blisters' on them so that they resemble the leaves of a Savoy cabbage. Matures in August from a June planting. A very winter hardy plant and delicious steamed or eaten raw in salads.

Price: £2.50 for 40 seed

KOHL Rabi

ITEM: 3100 | KREF F1

An early light green variety, suitable for forcing as well as all year round garden production. Highly resistant to stem splitting, bolting and over enlargement. Globe shaped with good quality tender flesh. 75 to 80 days maturity.

Price: £2.70 for 30 seed

ITEM: 3101 | BALLOT F1

Mid early, purple-skinned variety, which has a beautiful, bloom. Has round shape and excellent white flesh. Looks tremendous on the show bench or in a mixed salad basket. A much undervalued vegetable, can be ready to eat 10 to 12 weeks after sowing.

Price: £2.70 for 30 seed

LEEKS

ITEM: 3103 | ASCOT F1 *NEW*

Second Early variety that bulks up quickly. Good dark blue-green foliage which contrast well with a lengthy white barrel. Has proved to be a consistent performer at trials with good uniformity. Very parallel barrel with field resistance to rust.

Price: £3.35 for 60 seed

ITEM: 3104 | STAMFORD F1

An early high yielding variety with an erect dark blue green foliage, good length of barrel with attractive white colour. A very reliable performer with good uniformity within the bed. Field trials have shown good resistance to bulbing and rust. A leek well worth growing.

Price: £3.35 for 60 seed

ITEM: 3084 | BULGINA F1 World record longest leek

This variety won the World Record for Longest leek at the Canna Heaviest Vegetable show held at Malvern 2022, measuring 1,432mm (4.698 ft). Just imagine the stew you can get using this one if you only grow it to half its length!

Price: £4.00 for 60 seed

ITEM: 3118 | SANTORA F1 *NEW*

A very Winter hardy Leek with a lovely shape that will carry you through to early Spring. This leek has a lovely shape and is very resistant to the Rust disease that can so devastate leeks.

Price: £3.35 for 60 seed

SUMMER LETTUCE Butterhead

ITEM: 3229 | APPIA *NEW*

'A must-have' for any home gardener who loves a butterhead variety. Very versatile and perfect for the home garden and Allotment. Pale green, large sized heads on a very well structured plant, an early variety thats easy to sow and easy to grow.

Price: £2.50 for 50 pelleted seed

ITEM: 3107 | JUSTINE

An ideal variety for late spring and summer cultivation. Pale, smooth, glossy head with nice texture. Tolerant of high temperatures. Sow April-July, for harvesting June-October. Resistant to LMV and Bremia BL 16-18,22,24,25,28-30.

Price: £3.00 for 50 pelleted seed

ITEM: 3108 | DIVINA F1

A new variety to replace Sunny that's no longer available. Possesses a large slightly wavy leaf with a densely packed head with an approximate weight of 500 grams. Very slow to bolt and has excellent resistance to Tip Burn even in hot conditions. Perfect for the show bench and the kitchen.

Price: £2.90 for 200 seed

**LETTUCE Crisphead****ITEM: 3109 | GLASSICA *NEW***

A new and excellent replacement for Wismar that's been discontinued. Very reliable variety for all conditions and soil types. Excellent tolerance to tipburn, offering very consistent performance with high quality heads. Resistant to Bl 16-33, IR:LMV1, HR:NrO.

Price: £2.90 for 50 Pellets

**LETTUCE Cos****ITEM: 3110 | HOLIDEI *NEW***

Dark green Baby Cos. Grows to around 15 cm tall. All-season Little Gem, ideal for 150g hearts. Superior shape and easy of harvest. Medium-fast growth and long holding ability

Price: £2.90 for 50 Pellets

**LETTUCE Curly Leaf****ITEM: 3225 | MATADOR**

A triple red tightly curled Lollo Rossa type lettuce variety with a bright colour. Its mildew resistance makes it a must in any Lollo programme as it allows for greater flexibility. Perfect for eating as baby leaves.

Price: £2.90 for 50 pellets.

**LETTUCE Oak Leaf****ITEM: 3213 | KYRIO *NEW***

Open field blond oakleaf, very vigorous and early, looks amazing with its shiny leaves giving a nice presentation. Resistance to leaf aphids.

Price: £2.90 for 50 pelleted seed

WINTER LETTUCE

ITEM: 3226 | FROSTLINE - CURLY LEAF *NEW*

Probably the best winter lettuce of its kind that I have ever grown. The seed was sown in my polytunnel during early October and I was eating them through to March. Lovely flavour and easy to grow being free from most diseases.

Price: £3.20 for 50 pellets.

MARROWS Bush Variety

ITEM: 3111 | TIGER CROSS F1

A regular winner in the small marrow class. The fruit are distinctively marked with even and very contrasting stripes of dark and light green. They are freely produced and are easily visible on the plant giving a uniform colour all over.

Price: £2.60 for 10 seed

MARROWS Trailing Varieties

ITEM: 3230 | BUSH BABY

The first bush marrow with the capability of producing fruit to match Table Dainty. It produces a very high count of fruits over the season. This is a definite winner in the quality marrow classes.

Price: £2.60 for 10 seed

ONIONS

ITEM: 3114 | LARGE EXHIBITION ONION (RE SELECTION)

Probably the best onion you can grow for exhibition with the capability to grow to a large size with very uniform shape.

Price: £6.00 for 60 seed

ITEM: 3112 | REDFLASH F1 *NEW*

Very early maturing red onion with long-term storability. Very high yield potential. Slightly higher shouldered in shape than Red Rover with good uniformity. Excellent long-term storage performance and will be another addition to the Red Onion classes.

£3.50 for 200 seed

ITEM: 3115 | CANTO F1

An early maincrop high yielding onion with consistently good shape and uniformity between onions. This onion has been excellent for me during the past two years and will certainly prove to be a favourite with all who grow it. Lovely smooth brown skin with an exceptionally good storage life.

Price: £ 3.20 for 200 seed

ITEM: 3116 | TOUGHBALL F1

A return to the catalogue for this onion that used to be unbeatable on the show bench. It's a deep globe onion with beautiful veining on the dark coloured skin.

Price: £3.20 for 200 seed

ITEM: 3117 | FASTO F1

An early onion that has a single centre to ensure a much rounder bulb. Deep globe shape with a lovely stray colour. This is a perfect onion to use for the under 250gm classes

Price: £3.20 for 200 seed

ITEM: 3119 | RED ROVER

An early maturing variety with longer-term storability. It's very Uniform in size and shape, for those wishing to exhibit this onion, sow during mid January to mid-February for exhibiting during August September. It possesses an even dark red colour. This is the best red onion for the kitchen as it has high sprouting tolerance in storage.

Price: £2.95 for 200 seed.

ITEM: 3120 | PACKITO F1 *NEW*

A medium-early onion with excellent quality for long storage with vigorous roots and healthy foliage, one of the best onions I have seen for shape and colour. Outstanding skin firmness and very firm bulbs.

Price: £3.00 for 200 seed

ITEM: 3245 | VENTO F1

Produces very uniform onions in the bed giving you an excellent choice of bulbs for a dish. Globe shaped with a lovely skin finish. A good keeper. A must for the 250 gram class.

Price: £3.20 for 200 seed

ITEM: 3246 | HYLANDER F1 Resistance to onion downy mildew *NEW*

Hylander has a high resistance to downy mildew. It produces good yields of round bulbs which have good storage potential. A show winner in the under 250 grams class.

Price: £3.20 for 200 seed

ITEM: 3121 | RED BARON F1

A must for those exhibitors who like to have a go in the red onion class. It can attain a large size coupled with exceptional quality as well as an excellent internal red colouring and firm flesh. A top quality onion for winter storage.

Price: £3.20 for 200 seed

ONION SALAD

ITEM: 3122 | MARKSMAN F1 (Replaces Guardsman)

Marksman has upright dark green foliage, excellent taste, and peels very well. This superior variety is a great choice for growers. It is suitable for the spring/summer cropping period but also ideal for autumn crops when disease can be a particular problem. A vigorous root system helps to maintain the strong, upright leaves.

Price: £2.90 for 200 seed

ITEM: 3123 | CAREL

A variety for summer and autumn harvest. Very erect, waxy dark green leaves. Vigorous and versatile variety that can be grown in most conditions. Good resistance to leaf tipping producing an extremely healthy crop.

Price: £2.50 for 200 seed

ITEM: 3260 | REDDY

A long day variety that produces red bunching onions when grown as a salad onion from a spring sowing. Thick skin with deep red colour. This will also produce bulbing onions when grown at a wider spacing.

Price: £2.50 for 200 seed

PAK CHOI

ITEM: 3105 | JOI CHOI (White)

White stemmed variety with shiny dark green leaves. Sow until end of October. Good frost resistance and slow bolting.

Price: £2.20 for 100 seed

ITEM: 3106 | RED LADY F1 (Red)

A hybrid red Pak Choi that offers excellent vigour. The very upright, long petioled habit makes for easy baby leaf harvesting. Oval leaves in deep wine red with green undersides; green stems and red veins.

Price: £2.20 for 100 seed

PARSLEY

ITEM: 3201 | ROBUST *NEW*

A very hardy, tightly curled fronds on this vigorous parsley plant that produces high yields, excellent for garnishing around any dish of vegetables.

Price £2.00 for 200 seed

ITEM: 3202 | FRISON *NEW*

Another excellent parsley. Frison is a wonderful darker green parsley herb; It is especially good in salads. Very high yields forming nice bunches and slow to go to seeds.

Price £2.00 for 200 seed

ITEM: 3203 | FAULDS (Old Heritage variety) *NEW*

This parsley is unbeatable on the show bench. It's a curley moss-type parsley with extremely tight fronds. Wherever you want to use parsley, be it for garnishing vegetables on a dish, in collections, or simply in the kitchen, it's unbeatable.

Price £4.00 for 40 seed

PARSNIPS

ITEM 3113 | RMW02 F1 *NEW*

Another new parsnip from the same the same breeder as Gladiator and Viking, this one is also very white and carries its weight well down the root. Winner at three major shows in 2024.

Price £2.90 for 200 seed

ITEM: 3125 | PANORAMA F1

Strong resistance to canker is the hallmark of this long-rooted variety F1 hybrid. The vigour ensures large, weighty roots, which are full of flavour and may be lifted for several months without losing condition. This is a variety that should do really well on the show benches.

Price: £2.90 for 200 seed

ITEM: 3127 | GLADIATOR F1

The world's first hybrid parsnip and British bred to be much more vigorous and consequently a little larger than the formal Cobham Improved. Although capable of being grown to a very large size, it will still retain that refined shape which is certain to catch the judge's eye. Smooth white skin and resistant to canker.

Price: £2.90 for 200 seed

ITEM: 3129 | PEGASUS F1

Pegasus is vigorous and produces excellent quality white roots with very smooth skin. It has bulkier roots, suitable for pre-pack and fresh. Good disease resistance to canker. Very smooth roots with excellent shape. Very smooth, white skins with high resistance to canker

Price: £2.90 for 200 seed

**ITEM: 3130 | VIKING F1**

This was a winner at the Welsh Branch Championships in 2023. Has the potential to grow very heavy and long. An early variety that puts on weight very quickly. One of the whitest parsnips and keeps its colour longer than most others. High resistance to canker.

Price: £2.90 for 200 seed.

**PEAS****ITEM: 3131 | SHOW PERFECTION RESELECTED FOR EXHIBITION**

The only pea to grow for the serious exhibitor winning all over the country and unbeatable when well grown. This selection has consistently been winning for many years at all the top shows. One of the sweetest peas you will ever eat!

Price: £2.90 for 30 peas

**ITEM: 3263 | HURST GREENSHAFT**

High yielding variety with dark green double pods. 8 to 10 peas per pod, a very reliable cropper at around 3 feet in height. A Royal Horticulture Society AGM award winner and a winner at many local shows.

Price: £1.90 for 40 peas

**ITEM: 3264 | SHIRAZ**

A purple snow pea variety producing attractive flat purple pods with good flavour. Very slow to develop seed and resistant to powdery mildew.

Price: £2.20 for 30 seed.

**ITEM: 3265 | DELIKETT**

A high-quality Sugar Snap pea with a compact habit and high yields. Can be harvested over a long period. Stringless at early stages with excellent flavour. Height 65cm pods are 8-9cm in length and 13mm wide. White flowering.

Price: £2.20 for 30 seed.

PUMPKIN

ITEM: 3132 | HARVEST MOON F1

An early maturing and compact plant that produces fruit 4 to 5 kg in weight. Flat globe shape with strong handles and a very attractive colour. Ideal for Halloween.

Price: £3.10 for 5 seed

ITEM: 3133 | RE SELECTION GIANT PUMPKIN

The seed for this pumpkin have been harvested from pumpkins weighing in excess of 1,000 lbs each.

Price: £3.50 for 5 seed

RADISH

ITEM: 3134 | DONATO F1

Early maturing variety with Uniform, deep red bulbs. A vigorous, quick-growing variety with strong, upright foliage; the attractive deep red globes are rich in vitamins and minerals.

Price: £2.20 for 200 seed

A Unique purple and white two toned round roots offering a colour contrast for salads with a peppery flavour.

Price £2.20 for 200 seed

ITEM 3207 | AUTELLA F1 ***NEW***

Indoor type for late season and winter production from late Autumn to the following Spring. Excellent Red Colour and internal quality. Resistant to white rust.

Price £2.20 for 200 seed

SHALLOT FROM SEED

ITEM: 3137 | MATADOR

The shallot that produces one bulb from each seed. Very similar to the traditional type, with high shoulders and a rounded base. An excellent quality shallot that's suitable for long term storage. Harvesting will take place before standard bulb onions but later than traditionally planted shallots

Price: £2.50 for 100 seed

SQUASH

ITEM: 3227 | HUNTER F1

Specifically bred for the northern European climate and maturing up to 4 weeks earlier than other American hybrids. Fruits average 800g to 1Kg with a very high level of top quality fruit as well as a heavy total yield

Price: £2.50 for 8 seed

ITEM: 3228 | CROWN PRINCE

This squash has blue-grey skin with dense orange flesh, this variety is a favourite with cooks for its consistent flavour and all-rounder qualities with a sweet, rich, nutty flavour. The fruit weigh on average 3-4kg. and stores well.

Price: £2.90 for 8 seed

SWEDE

ITEM: 3248 | HELENOR

The most useful of vegetables during the winter months, sow the seed during early and thin down to one when about two inches tall. An excellent source of Vitamin Calcium, Potassium and Magnesium. Creamy flesh with a beautiful purple shoulder. Excellent flavour and very Uniform heads in the row, one of the better Swedes.

Price: £2.50 for 300 seed

ITEM 3252 | GIANT SWEDE.

Just what you require to win at the heaviest competitions at your local and National shows. This seed is from the original World Record stock that was grown By Ian Neale to 54.0 kg (119 lb)

Price: £3.00 for 40 seed

ITEM: 3258 | TWEED F1

Tweed has a dark purple top and cream base. It is a larger, rounder Swede than Helenor but maintains a good shape. It has a cream-coloured flesh with a very good flavour. Top class for exhibition and a winner at many shows

Price: £2.95 for 200 seed

SWEET CORN

TEM: 3138 | EDEN F1 (White Kernels)

Delivers high yields without sacrificing sweet flavour and outstanding texture. Bright white kernels grow on 8 inch cobs. Excellent for eating fresh having the Super-sweet extra flavour and crisp texture; they also have a higher sugar content than many other varieties of sweet corn as well as a slower conversion of sugars and starches. They hold their quality for more than a week after picking. 76 days to maturity.

Price: £2.70 for 30 seed

ITEM: 3139 | INCREDIBLE F1 *NEW*

A very adaptable and vigorous sweetcorn. Performs reliably across Europe and produces large cobs with outstanding sweetness and a crunchy texture. Good resistance to common rust. 90 days to maturity.

Price: £2.70 for 30 seed

ITEM: 3140 | GOLDN HIND F1

A very early multi-sweet variety. Cobs typically 17-19cm in length, with an average of 16 rows of grains per cob. Medium sized grains and medium sized core. A shorter variety with some tillers. Produced 1.15 cobs per plant in recent trials.

Price: £2.70 for 30 seed

ITEM: 3141 | SOLSTICE F1

The mid-early maturing variety has excellent eating quality. Each 7-in., bicolor ear with yellow/white kernels is packed with straight rows, great tip fill, juicy sweetness and a good corn flavor. This vigorous hybrid has strong emergence, even in cooler temperatures, allowing you to get a jumpstart on the sweet corn harvest. 75 days to maturity.

Price: £2.70 for 30 seed

TOMATOES

All our tomato seed will be sold in plastic Vials to make absolutely sure that you receive them undamaged and in prime condition.

ITEM: 3142 | DOMETICA RZ F1

This is a new improved selection with fantastic reports coming back regarding its flavour. Round in shape and suitable for summer cropping. It's very productive and the tomatoes are of excellent quality and great for the show bench. For best germination, cover the seed very thinly, virtually uncovered, with some fine Vermiculite.

Price: £6.00 for 10 seed

ITEM: 3143 | SHIRLEY F1

Undoubtedly one of the nicest tomatoes to eat. A very heavy cropper to the extent that some trusses may need supporting with string to prevent them tearing off the main stem.

Price: £3.50 for 10 seed

ITEM: 3144 | Y DDRAIG GOCH F1

We are really excited about this new hybrid variety that has been bred for me by a professional tomato breeder and the first ever vegetable to be officially registered in the Welsh language. A cross made with Goldstar seed from Charles Maisey and the proven show winner Cedrico that's no longer available. A vine ripe variety with excellent flavour and possessing a large calyx.

Price: £3.50 for 10 seed

ITEM: 3146 | BIG MAMMA

These beauties are plum-shaped, Skin peels away easily after par-boiling, which means less fuss, less mess and more delicious, thick, creamy sauce! An Indeterminate type that crops really well. Ideal for the large plum tomato class, on a personal note, fast becoming one of my favourites to eat.

Price: £3.20 for 10 seed

ITEM: 3148 | TERENCE F1

This variety replaces Tumbler as we feel this is a better cropper. Bred for patio growing in pots and ideal for hanging baskets. The plants cascade over the side of the pot or basket. Superb flavour and cherry shaped red fruits. Fruits typically weigh 18-20 grams with a brix reading of 6%.

Price: £2.90 for 5 seed

ITEM: 3149 | SUNGOLD

This variety has been voted by gardeners as one of the sweetest tomatoes they have grown. A heavy cropper from early Summer through to late Autumn. Large cascading trusses of thin skinned small sized tomato of an orange colour. Cordon type. An extremely popular variety.

Price: £2.90 for 10 seed

ITEM: 3151 | MAISEY F1

This is another cross from the same breeder as Y Ddraig Goch and named after Charles Maisey who had so much success on the show benches over so many years. A really round variety with a good calyx that some exhibitors who have trialled it think it's probably one of the best for exhibiting and eating. To get a winning size on the fruit, thin the trusses down to 5 fruit.

Price: £3.50 for 10 seed.

ITEM: 3204 | SUPER MAMA F1

The hands down champion in the arena of 'Roma' type tomatoes with an unbeatable armour of unique zesty Italian flavour, vigour, aroma and yield. It bears a bounty of oval 150 – 170g fruit. Strong roots conquer enemies such as blight and blossom end rot.

Price: £2.90 for 10 seed.

ITEM: 3209 | RIESLING F1

A fabulous new introduction for the mini Plum tomato class, fruit are about 1½" long and between 15 and 20 grams in weight with a beautiful calyx. The fruit are very uniform in size and shape. A delicious tomato with dense, firm flesh. Outstanding in trials, with excellent disease resistance. Indeterminate, (needs support) cool or warm greenhouse. Winner of an RHS Award of Garden Merit for reliability and good performance.

Price: £3.00 for 10 seed.

ITEM: 3210 | BUFFALO SUN F1

A large indeterminate Beefsteak variety, a vigorous grower with an easy open habit. The colour is bright yellow with a red flame on the skin. The ribbed fruit are resistant to late blight and can therefore be grown outdoors in suitable areas.

Price: £3.00 for 10 seed.

ITEM: 3212 | CHERRY BABY F1 *NEW*

This amazing tomato produces cascading, jewel-like clusters of delectable ruby-red cherries. Tomatoes bursting with sweetness, light, and a tingly-tangy 'pop!' 'Cherry Baby's superproductive plants soon mass with dense clusters of up to 350 sweet 1 oz. fruits. In a large container or the garden, these tomatoes place a healthy snack within arm's reach. Indeterminate.

Price - £3.00 for 10 seed

ITEM: 3231 | SWEET APERETIF

This red skinned cherry tomato produces excellent yields of delicious, bite sized fruits. Each fruit weighs approximately 12g and when grown in the greenhouse over a long period, up to 500 thin-skinned, shiny red cherry fruits are produced per plant that's about 6kg (13 lbs)! Tomato 'Sweet Aperitif' has a high sugar content and just the right amount of acidity which combine beautifully for a sweet but refreshing flavour. Indeterminate variety and probably the sweetest tomato you'll eat.

Price: £2.50 for 10 seed

ITEM: 3235 | GIANT VARIETY P.G. SELECTION

This is a monster of a tomato, a reselection by Peter Glazebrook of a World Record winning strain. By thinning the trusses down to leave just two tomatoes per truss, Peter has achieved tomatoes in excess of 3lbs each with the best achieving 4½ lbs in weight. The one to grow if only for the fun of entering the heaviest tomato class at your local show.

Price: £4.50 for 6 seed

**ITEM: 3271 | GOLDWIN F1**

A yellow cherry tomato, Strong plant very productive, Fruit weight around 20-23 grams, Excellent taste. Firm fruit, slightly crispy, with a perfect balance between sweetness and acidity.

Price: £3.00 for 10 seed

**ITEM: 3274 | HONEY MOON F1 (Pink Tomato)**

Fleshy, sweet fruit, full of flavour! Vigorous plant, very productive. Large, very attractive slightly pink fruits. Compact plant with short internodes. Superb in the garden: very good level of resistance to late blight with resistance gene combination Ph2 and Ph3.

Price: £3.00 for 10 seed

OUTDOOR TOMATO

ITEM: 3205 | NAGINA F1

British bred F1 blight resistant suitable for greenhouse or outdoor Tomato a Roma or plum tomato variety. Producing an abundance of medium sized red plum fruits around 50g, which are ideal for cooking, slicing or use in salads and sandwiches. This variety is blight resistant and can be grown successfully outdoors in the South, once all risk of frost has passed; also grows well in a glasshouse or polytunnel. Indeterminate.

Price: £2.90 for 10 seed.

ITEM: 3234 | CRIMSON CRUSH

Provides great yields of exceptionally fine tasting, large, round tomatoes (each weighing up to 200g). Bred for outdoor growing, it's the tomato that everyone should be planting. This is not just a blight resistant tomato it is a blight beating tomato. Never be disappointed with your tomato crop when blight strikes again. Ideal for the home or the allotment. Harvest July-October.

Price: £3.75 for 10 seed

**ITEM: 3239 | CONSUELO F1 "NEW"**

Another exceptional addition to our range of phytophthora-resistant tomatoes. The large cherry sized fruit, weighing 15-20 grams, have exceptional flavour with a Brix level in the range 9-11. Clusters of 25-30 fruit are borne on long trusses, with each plant yielding up to 150 tasty, bite-sized tomatoes. Remarkable variety combines excellent outdoor performance in Northern Europe with good blight resistance.

Price: £2.90 for 10 seed

ITEM: 3240 | PAOLINE F1 *NEW*

Rediscover the taste of gardening! The new reference to grow in the garden. An indeterminate variety with a lovely round shape weighing between 130 and 160 grams. Combines taste quality, and productivity and it's easy to grow. One additional huge advantage, it resists late blight.

Price £3.00 for 10 seed

TURNIPS

ITEM: 3153 | OREGON F1

Has sweetly flavoured yellow roots. High quality, fast growing maincrop variety. Delicious roasted or grated raw in salads. Excellent source of vitamin C. A highly recommended yellow hybrid variety with improved quality and vigour for early and main season crops. Roots are colourful, crisp and tender, with outstanding flavour.

Price: £2.30 for 200 seed

ITEM: 3154 | TOKYO CROSS F1

One of the quickest varieties to mature, producing pure white round tops. Harvest the turnips when small for the best flavour. Full of hybrid vigour and will be ready to eat in ten weeks after sowing.

Price: £2.30 for 200 seed

ITEM: 3155 | SWEETBELL F1

An introduction from the same breeder as Sweet Candle carrot. Bred in Japan with a fantastic Super Sweet flavour, the sweetest turnip I have ever eaten. Pure white skin with a lovely pale purple splash around the shoulder.

Price: £2.30 for 200 seed

VEGETABLE PLANTS

Please note that we are unable to change dispatch dates as stated, both online and in the Catalogue Rooted leek bulbils will now be posted to you from early December (growth rate and weather permitting). Do make sure that you have a heated propagator or heated greenhouse ready to receive them. **THESE ARE ONLY AVAILABLE UNTIL THE MIDDLE OF JANUARY.**

To guarantee reservation of your rooted bulbils, you are advised to order as early as possible. Orders received after the middle of December will be posted out during the first week of January.

ITEM: 1002 | BLANCH LEEK - ROOTED BULBILS PENDLE IMPROVED

Posted to you in flat plastic containers from Mid December. On receipt, these plants must be grown in a heated greenhouse with a minimum night temperature of 50°F. It would also be beneficial to give them some bottom heat for the first few weeks. This selection is also available as Premium Plants Item 1011. Sold in units of 10.

Price per pack of 10 including Post and Packing: £19.00

PREMIUM PLANTS

ITEM: 1006 | BLANCH LEEK PLANTS FROM ROOTED BULBILS, PENDLE

These plants will be grown on in the largest size Jiffy seven pellet to produce plants that you simply cannot fail to grow top quality specimens from. They will have a strong root system that will ensure the plants have a minimum check to growth when potted on. Ideally, some heat may be required on receipt to make sure the plants have the best possible start. Supporting the plants by using Plastic Plant Support Clips, Item 0005 in this catalogue, will ensure that they root faster as well as remaining upright. Delivery dates will be from late February to mid-March depending on weather conditions and growth rate. Sold in Units of 10 plants well protected in strong cardboard boxes to alleviate as much damage as humanly possibly through the delivery system. Next day delivery.

Price per pack of 10 including Post and Packing: £45.00

ITEM: 1016 | BLANCH LEEK PLANTS FROM ROOTED BULBILS, LLANEDWEN

OUT OF STOCK FOR THIS YEAR.

Price per pack of 10 including Post and Packing: £45.00

ITEM: 1008 | BLANCH LEEK PLANTS FROM ROOTED BULBILS, WELSH SEEDLING

Delivery dates will be from late February to mid-March depending on weather conditions and growth rate. Sold in Units of 10 plants well protected in strong cardboard boxes to alleviate as much damage as humanly possibly through the delivery system. Next day delivery.

Price per pack of 10 including Post and Packing: £45.00

ITEM: 1009 | CUMBRIAN POT LEEK PLANTS (ROOTED BULBILS)

Delivery dates will be from late February to mid-March depending on weather conditions and growth rate. Sold in Units of 10 plants well protected in strong cardboard boxes to alleviate as much damage as humanly possibly through the delivery system. Next day delivery.

Price per pack of 10 including Post and Packing: £45.00

ITEM: 1001 | PETER GLAZEBROOK WORLD RECORD ONION PLANTS

These are plants sown earlier than the above and from seed that Peter broke the World Record with at 18lbs 1 ounce. These plants will be grown on in the largest size Jiffy seven pellet to produce plants that you simply cannot fail to grow top quality specimens from. They will have a strong root system that will ensure the plants have a minimum check to growth when potted on. Ideally, some heat may be required on receipt to make sure the plants have the best possible start. Support the plants by using Plastic Plant Support Clips, Item 0005 in this catalogue. Delivery dates will be from mid to late March depending on growth rate. Sold in Units of 10 plants well protected in strong cardboard boxes to alleviate as much damage as humanly possibly through the delivery system. Next day delivery First Class Post.

Delivery dates will be from mid to late March depending on growth rate. Sold in Units of 10 plants well protected in strong cardboard boxes to alleviate as much damage as humanly possibly through the delivery system. Next day delivery First Class Post.

Price per pack of 10 including Post and Packing: £45.00

ITEM 1032 | GIANT CORNISH CABBAGE PLANTS

These cabbage plants will have been grown from my own genuine stock of the Old Cornish Giant Cabbage which has the capabilities to grow to well over 60lbs. They will require at least four feet between each plant. Sold in the largest size Jiffy seven pellets and sent out during early April in strong Plastic Blister packs for potting on prior to planting out during late April. Sold in Units of 5 plants

Price per pack of 5 including Post and Packing: £7.99

ITEM: 1036 | EVENING STAR CELERY - Grown on from a late February sowing posted out from late April

This is a service to help those growers who want a better start with their plants without the bother of germination and the extra heat required. They will be sent out as young plants fully rooted in large Jiffy 7 pellets and ready for potting on into at least a 4-inch pot. You really can't fail to get the best start with these. Sold in Units of 10 plants well protected in strong cardboard boxes to alleviate as much damage as humanly possibly through the delivery system. Delivered next day via Courier service.

Price per pack of 10 including Post and Packing: £30.00

ONION PLANTS FOR THE UNDER 250 GRAMS CLASSES

These onions are grown for those who have no heated facilities for early growth themselves. Sown in January they will be ready for posting as young seedlings from approximately end of February to mid-March. On receipt, these plants must be grown in a heated greenhouse with a minimum night temperature of 50°F. Supporting the plants by using the plastic plant support clips, Item 0005, will ensure that they root faster and grow upright. For full description of each cultivar, check under seed list. Sold in packs of 10.

ITEM: 1012 | VENTO F1 ONION PLANTS

Price per pack of 10 including Post and Packing: £12.00

Price per pack of 10 including Post and Packing: £15.00

ITEM: 1020 | MORNING STAR F1 HYBRID SEEDLINGS

From mid January sowing

Price per pack of 10 including Post and Packing: £15.00

TOMATO PLANTS

ITEM: 1025 | MAISEY F1 (Tomato Plants)

Named in gratitude for the beautiful exhibits of tomatoes that Charles Maisey staged over the years. Lovely and round with a good calyx. Thin trusses down to 5 or 6 to get good sized specimens. Grown on in jiffy 7 pellets and sent out during mid-April in strong plastic blister packs (the exact timing will depend on the rate of growth which is dependent on weather conditions at the time). On arrival they should be potted on into 3 inch pots. Protect from frost if forecasted.

Sold in packs of 5 @ £12.99 including Post and Packing

ITEM: 1025 DOMETICA RZ F1 (Tomato Plants)

A new improved selection of this variety that has excellent flavour. Round in shape and suitable for Summer cropping. Grown in the largest size Jiffy Seven and posted out in plastic blister packs during mid-April. The exact timing will depend on the weather and the rate of growth. On arrival pot them into 3 or 4 inch pots and protect them from frost if forecasted.

Sold in packs of 5 @ £12.99 including Post and Packing

ITEM: 1029 | Y DDRAIG GOCH F1 (Tomato Plants)

A cross made with Goldstar seed from Charles Maisey and the proven show winner Cedrico that's no longer available. A vine ripe variety with good flavour and possessing a large calyx. Grown on in jiffy 7 pellets and sent out during mid-April in strong plastic blister packs (the exact timing will depend on the rate of growth which is dependent on weather conditions at the time). On arrival they should be potted on into 3 inch pots. Protect from frost if forecasted. Sold in packs of 5.

Price per pack of 5 including Post and Packing: £12.99

OTHER PLANTS

ITEM: 1026 | GIANT MARROW PLANTS (Only available as plants)

These plants have been introduced for those growers who may be finding it difficult to germinate the seed or perhaps who don't want to spend money on heating costs. These are plants from our Re Selected Giant Marrows. Sold in the largest size Jiffy seven pellets and sent out from mid-May in strong Plastic Blister packs. On arrival they must be potted up and initially offered protection from frost. Sold in packs of 5.

Price per pack of 5 including Post and Packing: £12.00

ITEM: 1027 | FAULDS PARSLEY SEEDLINGS

Undoubtedly the best parsley of the lot and unbeatable on the Show Bench, a very old Heritage variety of superb quality, regularly exhibited north of the Border. Excellent for enhancing vegetable displays. A curly moss-type parsley with extremely tight fronds. Posted during Late March/early April when about an inch tall.

Price per pack of 10 seedlings including Post and Packing: £11.99

ITEM: 1031 | GIANT PUMPKIN PLANTS
(Re selection from Atlantic Giant) Not available as seed

These are plants from our own Re Selected Giant Pumpkins. Sold in the largest size Jiffy seven pellets and sent out from mid-May in strong Plastic Blister packs. On arrival they must be potted up and initially offered protection from frost. Sold in packs of 5.

Price per pack of 5 including Post and Packing: £12.00

SHALLOTS AND ONION SETS

ITEM: 5001 | ARISTOCRAT SHALLOTS

Unavailable for this season owing to crop failure.

ITEM: 5002 | JERMOR SHALLOTS

A top-quality French Shallot with excellent merits for the show bench and probably one of the best for culinary use as well. A taller type of shallot than Aristocrat and certainly worth growing. All orders will be despatched to arrive before Christmas. If ordering this item after Christmas, please telephone or email for availability. Sold in packs of ten.

Price per pack including Post and Packing £8.5

ITEM: 5008 | GOLDEN GOURMET SHALLOTS

A Dutch yellow variety of shallot that produces large bulbs with a lovely golden-brown skin. Whilst their flavour is mild enough for them to be used raw in salads, they are also wonderful in cooking and of course pickling! With its excellent resistance to bolting and good keeping qualities this heavy yielding variety really is hard to beat. RHS award of merit. Sold in packs of 20.

Price per pack including Post and Packing: £8.50

ONION SETS

ITEM: 5003 | STURON

A popular culinary variety noted for a well-shaped, round bulb with an excellent flavour. Medium sized, with thin necks they will store well right through the winter to March under the right conditions. For best results apply a dressing of my **Leek & Onion fertiliser** Item 0065 which I have formulated to the correct nutrient balance of NPK plus additional magnesium at 4oz per square yard prior to planting. Sold in packs of 300 grams (approx. 75 sets)

Price per pack including Post and Packing: £8.00

ITEM: 5004 | RED BARON F1

An excellent storing variety which is also consistently winning in the classes for red onions. For the earlier shows, start them off in Plantpak 24's for exhibiting from early to mid-August. Posted from early February, the sets will be firm, disease free and handpicked for reasonably even size. Sold in packs of approximately 300 grams (approx. 75 sets)

Price per pack including Post and Packing: £8.00

ITEM: 5005 | HERCULES

A yellow to brown round bulbs with strong flavour that keeps exceptionally well. For the earlier shows, start them off in Plantpak 24's for exhibiting from early to mid-August. Sold in packs of approximately 300 grams (approx. 75 sets)

Price per pack including Post and Packing: £8.00

ITEM: 5006 | CENTURION

The bulbs have a lovely deep brown colour when properly harvested and globular in shape. Earlier than most other sets for the early shows. I start them off in Plantpak 24's in March or small pots for exhibiting from early to mid-August. Posted from early February onwards, the sets will be firm, disease-free and hand-picked for reasonably even size. One of our bestselling lines. Sold in packs of approximately 300 grams (approx. 75 sets)

Price per pack including Post and Packing: £8.00

SUNDRY ITEMS

ITEM: 0002 | GIFT VOUCHERS

A perfect Birthday or Christmas gift for a family or friend. The tokens can be redeemed for any amount over £10.00 from the current catalogue. Each one will have a personal message on the voucher from Medwyn.

Sold in units of £10.00

ITEM: 0003 | ZINC STARCH AND TALC

This is the powder that's used to dry out the skins of exhibition onions and shallots. After lifting the onions or shallots, remove the outer skins to leave one unblemished last skin. Wash in tepid water with a drop of washing up liquid and dry the bulbs with some soft tissue or towelling. Apply the powder on to the onion once with a soft pad or cotton wool outdoors or in an airy room. As a precautionary measure, do not breathe in the powder. The powder will uniformly dry the outer skin giving the onion a lovely light brown colour. Packed in re sealable polythene bags with each pouch weighing 70 grams, enough for a couple of seasons.

Price £6.90 per 60 grams including Post and Packing

ITEM: 0004 | JIFF CLIP

A gardening aid that I just wouldn't be without, it's the most useful and time saving wire that you will ever use. Saves you tying your canes to wires with string, just let this simple Jiff Clip do the job for you. One clip, that's all you need to keep a cane firmly attached to any supporting wire in seconds. Made from galvanized spring steel to last you a lifetime. Sold in packs of 20.

Price £7.00 per pack of 20 including Post and Packing.

ITEM: 0005 | PLASTIC PLANT SUPPORT CLIPS – 100MM

Another indispensable gardening aid that I simply wouldn't be without. An invaluable clip for supporting many plants. I use them regularly for supporting the flags on my leeks, leaves of my onion plants and celery as well as other veggies. Re usable year after year, they have an unlimited use in both the greenhouse and garden. Clips on to the regular split canes. Sold in packs of 100.

Price £18.50 per pack of 100 including Post and Packing.

ITEM: 0012 | VELCRO PLANT TIES

This product gets more popular year on year because of its usefulness and versatility, a fantastic handy to cut ties from a roll that you can use on numerous plants throughout the garden. Cut to any length you want and use them for tying on Trellis or Canes, weather resistant, strong and durable. Perfect for tomatoes, cordon grown Peas, Sweet Peas and many other uses. Roll is 5 metres long.

Price £4.70 per pack including Post and Packing.

ITEM: 0015 | FOUR INCH WHITE PLASTIC PLANT LABELS

Where would we be as gardeners without this handy little label? Sold in packs of 100.

Price £3.25 per pack including Post and Packing.

ITEM: 0028 | LUMOCOLOR PERMANENT SPECIAL PEN

The best Permanent pen that I have found to write variety names on Plant labels (Item 0015) 'Fine' marking. The ink is waterproof and weatherproof and though more expensive than most, will do the job much better.

Price £4.75 each

ITEM: 0507 | NATURAL RAFFIA

This is the best quality natural raffia 50 grams in weight with approximately 90 to a 100 strands a metre long. The only material that should be used to tie the necks of your onions, shallots etc.

Price £5.95 per pack including Post and Packing

ITEM: 0035 | MEDWYNS POTATO POLYBAG Exclusive to Medwyns

These 500g black bags have been engineered specifically for us having more holes around the base therefore allowing more roots to penetrate to soil below offering you a better chance of having a heavier crop. The bags are 20 litres. These are the bags used now by many of the top growers.

Price £4.50 per pack of 5 bags

ITEM: 0036 | MEDWYNS POTATO POLYBAG Exclusive to Medwyns

Price £14.00 per pack of 20 bags

ITEM: 0037 | MEDWYNS POTATO POLYBAG Exclusive to Medwyns

Price £33.00 per pack of 50 bags

ITEM 0099 | ENVIROMESH 2.6 metre wide sold by the metre

Protect crops from carrot fly, cabbage root fly, aphids, caterpillars etc using this fine nylon mesh. Place the Enviromesh directly over your crops and anchor securely in place with ground pegs or use to cover crop frames and cages. Plants will remain naturally watered and ventilated with this permeable netting. You can make your own light weight frames with roofing battens to cover your carrot beds

Price: £5.00 per Metre length

ITEM: 0068 | GREEN SPLIT CANES 300MM (12 INCH) LONG.

I wouldn't be without these canes, particularly useful when growing in the greenhouse. These are the canes I use together with our Plastic Plant Support Clips Item 0005 to support a variety of plants, in particular Leeks, Onions and Celery.

Pack of 100 canes £3.95

ITEM: 0069 | AS ABOVE 600MM (24 INCH) LONG**Pack of 50 canes £4.25****ITEM: 0098 | AS ABOVE 900MM (36 INCH) LONG.****Pack of 25 canes 5.95****ITEM: 0070 | BLACK AND WHITE POLYTHENE SHEET
1.8m wide (6ft) x 10m in length (32.8ft), gauge 85mu**

This is the perfect material to cover your growing beds with if you are into exhibition onions, and hydroponic growing amongst many other things. Cover you bed over, white side up, and cut crosses in the polythene through which you plant your onions. The polythene keeps moisture in the bed, keeps the beds weed free and reflects light back on to the plant for increased growth. Please contact us if you require longer lengths than is listed below.

**Price: £24.50****ITEM: 0071 | AS ABOVE BUT 15M IN LENGTH (49.2 FT)****Price: £31.00****ITEM: 0072 | AS ABOVE BUT 20M IN LENGTH (65.6 FT)****Price: £37.00****ITEM: 0501 | 20 LITRE BLACK HEAVY DUTY POTS**

Price £399.00 per unit Including p&P.

AUTO POT GROWING SYSTEM

The Autopot system is a globally successful product. They use no electric parts at all, relying simply on natural forces such as gravity and capillary action. As the Autopot uses gravity, the system can be set out in any shape you like. If you have a very long, narrow space, you can arrange the pots all in a line without problem. Most growers tend to place them in square or rectangular way.

Post and Packing will be free on all Auto Pots systems.

ITEM: 0602 | EASY2GO KIT

Turn any gardening tray into an Auto Pot System. Assembled and installed with remarkable ease the easy2GO Kit relieves all the hassle of hand watering without the need for electricity, pumps or timers. This simple, self contained and entirely mechanical device can be used anywhere; in your home, greenhouse, conservatory or balcony. Inexpensive and flexible, this kit contains all fittings required to connect to a reservoir of your choice.

Price: £21.55

ITEM: 0603 | 4 POT SYSTEM – 4 x 15 Litre Pots Ring or email for quotation if extra pots required

The 4Pot System combines ease of use and minimal labour with the capacity to grow exquisite, fruitful, and even prizewinning plants. Popular with hobby gardeners, kitchen gardeners and NVS Champions alike, the fully automated, power-free, gravity-fed 4Pot System takes the hassle and strain out of watering. This allows you to concentrate on cultivating larger plants to achieve their full potential.

With no need for electricity, pumps, or timers you are free from the constraints of a power source. This makes the 4Pot System wonderfully flexible and gives you the option to arrange or move pots virtually at will. Pots can be added and removed with a minimum of fuss. Each pot contains its own valve through which the plant draws water and nutrients. Individual plants can therefore control their own feeding requirements making the system truly responsive.

Price: £107.00

ITEM: 0604 | **EASY 2 GROW KIT – 2 x 8.5 litre pots** Ring or email for quotation if extra pots required

Trusted by our closest friends, esteemed hobby growers and our biggest commercial clients alike, easy2grow irrigates effortlessly to produce superlative fruit, vegetables and flowers. You too can create the finest floral fancies and veritably venerable vegetables using this simple, power-free system. Beloved for its simplicity and efficiency, the easy2grow Kit can be set up practically anywhere as it requires neither electricity nor running water. The tray contains an AQUAvalve through which the plant draws water and nutrients.

Price: £47.50

ITEM: 0605 | **EASY2GROW LIQUID FEED – 1 LITRE**

A mineral feed of the highest quality, developed through years of experience and tailored to complement our watering systems; easy2grow Liquid Feed is everything we could ask for in a nutrient. NPK 2.0-1.3-2.4

Price: £6.50 – 1 LITRE

ITEM: 0606 | **AS ABOVE in 5 litre container**

Price: £26.90 – 5 LITRE

ITEM: 0607 | **RAPID ROOTS – 100% ORGANIC ROOTING GEL**

Get your cuttings and seedlings on the direct route to healthy, structured, swift development with Rapid Roots. This all-natural, 100%organic rooting gel offers significant gains over its synthetic rivals for a simple reason. Rapid Roots completely preserves the natural plant hormones, vitamins, trace elements, and other nutrients present in the seaweed from which it is derived. Simply take your cutting, dispense gel into a small container and coat the bottom to the stem with 2cm of Rapid Roots gel. Once the stem is coated transfer immediately to your propagator. Maintain the cutting in moist conditions conducive to growth until the plant has effectively rooted.

Price: £12.00 – 50ml including P&P

ITEM: 0608 | **RAPID ROOTS – 100% ORGANIC ROOTING GEL**

As Above in 200ml bottles - £39.99 including P&P

ITEM: 0609 | **TRAY2GROW SYSTEM**

Tray2Grow is the completely automated, completely power-free system that offers you five ways to feed and water your plants. Seed trays, small pots, grow bags, micro herbs, and planters, can each be accommodated, making this the most versatile product in the AutoPot range and one of the most versatile irrigation systems period. Reservoir not included

Price: £69.95

FERTILISERS, BIO STIMULANTS AND ACTIVATORS

ITEM: 0006 | SB PLANT INVIGORATOR - 1 LITRE

A product that's become increasingly popular over the last few years. Makes 1,000 litres of mixture when diluted as this is super concentrated. This is an Environmentally Friendly Growth Stimulant and Pesticide with no harvest interval – you can eat the crop the same day as you sprayed them. Controls a wide range of important pest species including Whitefly, Aphids, Spider Mite and Mealybug and because of its unique physical mode of action, these pests will not become resistant to the product. The product is Biodegradable and can be used on all edible and ornamental crops. Dose rate 1ml per litre of water.

Price £49.50 per litre including P&P.

ITEM: 0007 | SB PLANT INVIGORATOR 250ML

As Item 0006 but makes 25 litres when diluted. Dose rate 10ml per litre of water.

Price £12.99 per litre including P&P.

ITEM: 0008 | SB PLANT INVIGORATOR 500 ML

As Item 0006 but makes 50 litres when diluted. Dose rate 10ml per litre of water.

Price £19.99 per litre including P&P.

ITEM: 0009 | MEDWYN'S LIQUID GROWMORE 7:7:7 WITH ADDED FULVIC ACID BY WAY OF LIQUID GOLD (NUTRIMATE)

A highly efficient, concentrated liquid fertiliser. It is simply mixed with water and then applied via watering can around the base of growing plants in the garden and/or in the greenhouse. It provides all the nutrients needed for healthy growth and is suitable for all types of plants including fruit, vegetables and flowering varieties. It should be applied generously on a weekly basis throughout the spring and summer.

Price £9.99 per 500ml bottle including P&P.

ITEM: 0010 | MEDWYN'S LIQUID GOLD (Nutrimate)

Use as a foliar or soil and compost treatment. Increases root development ensuring maximum utilisation of all available nutrients. Excellent for drought tolerance by reducing transpiration through the leaves. A totally organic product. Sold in 500ml bottles. Growers claim amazing results using this product as part of their feeding programme.

Price £13.99 per 500ml bottle including P&P.

ITEM: 0011 | MEDWYN'S LIQUID TOMATO FEED with added Fulvic acid by way of Liquid Gold (Nutrimate) 500ML

Our own tomato feed with an NPK level of 5:5:10 plus trace elements with added Fulvic acid. This is a unique tomato feed giving excellent results. The added Fulvic acid by way of Liquid Gold (Nutrimate) assists in transporting all the nutrients around the plant more efficiently. Also ideal for feeding potatoes in pots or bags as well as Chillies and sweet Peppers.

Price £11.99 per 500 ml bottle including P&P.

ITEM: 0107 | BIO LIFT 500ml **Exclusive to Medwyns**

BioLift is a Biological inoculate for the soil. It assists suppression of root diseases like fusarium, pythium, rhizoctonia and all forms of wilt as well as parasitic nematodes. It assists in the suppression of all air borne moulds and fungal diseases. It enhances germination. It promotes quicker healthier root development. It unlocks and releases plant nutrients from the soil naturally. 1 bottle dilutes to make approx 500 litres which for a general application will treat up to 500 sq. Metres. BioLift is a Natural Disease Suppressant that complies with organic certification EU-Bio VO 2092/917 EC 834/2007

Price £24.99 for a 500ml bottle including P&P.

ITEM: 0108 | ECOTHRIVE BIOSYS 10 GRAMS

Biosys is a concentrated powder that you add to water to make a 'microbe tea'. It contains beneficial fungi and bacteria that improve root function, increase nutrient and water availability, help with disease prevention, speed up the breakdown of organic matter and improve plant growth. Biosys also contains the biological catalysts humic acids, amino acids, enzymes, proteins, carbohydrates and seaweed extract to allow activation and continued growth of the microbes within the root zone – right where you need them. Easy and quick to mix and use, nothing immediately improves the health of your root zone quite like Biosys.

Price £6.00 per 10grm packet including P&P.

ITEM: 0109 | ECOTHRIVE BIOSYS 50 GRAMS

Details as above

Price £13.99 per 50grm packet packet.

ITEM: 0110 | ECOTHRIVE BIOSYS 250 GRAMS

Details as above

Price £46.95 for a tub including P&P.

ITEM: 0020 | ECOTHRIVE CHARGE 1 LITRE TUB

A new Organic Soil Conditioner and Bio-Stimulant giving amazing results to many of the country's top growers. Charge is a 100% naturally-produced potting soil enhancer that offers a wide range of biological benefits to your plants. Charge boosts and prolongs the fertility of your potting mix by adding a balance of long-lasting primary nutrients in a highly available form. Composed entirely from the droppings of beetles, this premium grade 'insect frass' is packed full of beneficial microorganisms and natural plant growth catalysts. Charge will stimulate robust plant growth, improve root zone conditions and create vigorous high yielding plants. It's also certified for use in growing organic crops by the Soil Association.

Price £9.99 for a 1 Litre tub including P&P.

ITEM: 0021 | ECOTHRIVE CHARGE 5 LITRE TUB

Details as above

Price £21.50 for a 5 Litre tub.

ITEM: 0022 | ECOTHRIVE CHARGE 10 LITRE TUB

Details as above.

Price £32.50 for a 10 Litre tub.

ITEM: 0024 | CALCIUM NITRATE – (Excellent for controlling the incidence of heart rot in celery and Scurf on Potatoes.)

Calcium nitrate, also called Norwegian saltpetre is the inorganic compound with the formula $\text{Ca}(\text{NO}_3)_2$. This colourless salt absorbs moisture from the air and is commonly found as a tetra hydrate, Put the lid back on the little bucket as soon as you have finished with it. It's mainly used as a component in fertilisers. (15%N, 19% CaO) combines quick acting Calcium and Nitrogen.

Price £10.50 per 0.5 kg tub including P&P.

ITEM: 0016 | MEDWYNS POWDERED GOLD (Nutrimate)

Nutrimate contains very high levels of Humic and Folic acids. These are naturally occurring elements that improve the way nutrients and your plants work. The Humic acid quickly locks available nutrients into the soil or compost reducing leaching. The Folic acid allows for better uptake and use of nutrients in the plants. For a start, it's It is earthy, rich, dark and 100% organic. Apply at 1 ounce per plant or 1 ounce per yard run of soil or at 3 ounces to the square yard

Price £9.99 per 1kg tub including P&P

ITEM: 0017 | MEDWYNS POWDERED GOLD (Nutrimate)

As above in 10kg bucket £34.50

ITEM: 0018 | MEDWYNS POWDERED GOLD (Nutrimate)

As above in 20kg bag £59.40

ITEM: 0026 | OSMOCOTE EXACT STANDARD (Slow Release Fertiliser 5-6 months)

The professional range of controlled release nutrients from the Scotts Professional Range. Osmocote is an organic resin coated fertiliser with every granule containing the following NPK – 15+9+12 which is released slowly over the growing period up to 6 months. Plants grow better because they get the nutrients they require when they want it. The leaching of nutrients is minimised by the resin coating.

Price £13.68 per 1kg tub

ITEM: 0027 | OSMOCOTE EXACT HIGH K (High Potash Slow Release Fertiliser 5-6 months)

As above but with a high potassium level, this is ideal for fruiting plants such as Tomatoes Peppers Chillies and many other vegetables – NPK 11:11:18.

Price £13.68 per 1kg tub

ITEM: 0029 | LIQUID FEED - PETERS PROFESSIONAL 10+52+10

A feed that will give you the same results as the top professional growers. Contains the Scotts innovation - improved M-77. The Scotts Innovation optimises the availability and absorbability of all nutrient elements according to the principle 'It's not just about what you offer a plant; it's primarily about what the plant absorbs' M-77 unlocks the roots, increasing the effectiveness of the nutrients. All three listed are superb formulations. Apply at 1 gram per litre this can be marginally increased if you so wish

Price £9.15 per 500 grams tub

ITEM: 0030 | LIQUID FEED - PETERS PROFESSIONAL 20+20+20 Apply at 1 gram per litre

Price £9.15 per 500 grams tub

ITEM: 0031 | LIQUID FEED - PETERS PROFESSIONAL 9+9+36 Apply at 1 gram per litre

Price £9.15 per 500 grams tub

ITEM: 0061 | LIQUID FEED - PETERS PROFESSIONAL 21+7+21 Apply at 1 gram per litre

Price £9.15 per 500 grams tub.

ITEM: 0032 | VERMICULITE FINE GRADE 6 LITRE BAG.

A fine grade and regularly used by growers to lighten and aerate composts. Used extensively in all carrot and parsnip mixes. Also particularly useful for covering seeds and taking cuttings. Granule size is 1mm to 3mm. Water holding capacity is 419ml of water per litre of Vermiculite. Can be mixed up to 50% by volume of Vermiculite with the growing media.

Price £7.50 per bag.

ITEM: 0033 | VERMICULITE FINE GRADE 20 LITRE BAG.

£13.99 per bag.

ITEM: 0076 | VERMICULITE FINE GRADE 100 LITRE BAG.

Price £33.50 per bag.

ITEM: 0038 | JIFFY SEVEN PELLETS 32MM

These are the pellets we use to grow our Premium plants in. Made from Fine grade peat with added nutrients. The pellets are supplied in a dried compressed form allowing the grower to store un-used plugs until required next time. Simply soak the plugs in water and sow your seed, cuttings or seedlings directly into them.

Price £4.75 for 50 Pellets

ITEM: 0095 | VERMICULITE SUPERFINE GRADE 6 LITRE BAG.

This is the finest grade available and perfect for covering seeds and adding to exhibition mixes.

Price £8.90 per bag.

ITEM: 0096 | VERMICULITE SUPERFINE GRADE 20 LITRE BAG.

Price £15.25 per bag.

ITEM: 0097 | VERMICULITE SUPERFINE GRADE 100 LITRE BAG.

Price £35.35 per bag.

ITEM: 0111 | PERLITE 100 LITRE BAG

Perlite can be used for soil conditioning – increasing aeration and drainage in heavy soils. Loosens and aerates soil and compost to encourage root development. This has Neutral PH and is a sterile growing medium derived from volcanic rock. It aids nutrient uptake and improves plant health and growth.

Price £22.50 per 100 Litre bag.

NEW ITEM: 0112 PERLITE 20 LITRE BAG

Price £10.00 per 20 litre bag.

ITEM: 0077 | PERLKA (Calcium Cyanamide Fertiliser)

The perfect fertiliser for a range of vegetable plants. Perlka is a unique nitrogenous fertiliser manufactured from natural raw materials; coal, limestone and atmospheric nitrogen. When combined by electricity these materials form a well-proven nitrogen fertiliser. Perlka composition is 19.8% nitrogen (N) 50% lime (CaO) 1.5% magnesium (MgO) the lime in Perlka is in the form of calcium oxide, when in contact with water this calcium quickly turns into lime hydrate Ca (OH) 2 which is strongly alkaline.

Price £7.95 per 1kg tub

ITEM: 0078 | AS ABOVE IN 10 KG BAGS £24.99

ITEM: 0079 | AS ABOVE IN 20 KG BAGS £39.36

ITEM: 0040 | MEDWYNS GROWMORE FERTILISER 7:7:7

Growmore is a multi-purpose plant food with an even balance of nutrients to feed all the plants in your garden, with an NPK ratio of 7-7-7. When preparing Beds, Borders and Vegetable Plots, scatter 140g per sq metre (4oz per sq yard) onto the soil 7–10 days before planting or sowing, fork well in.

5kg bag £9.00

ITEM: 0041 | AS ABOVE IN 10KG BAG £12.00

ITEM: 0042 | AS ABOVE IN 20KG BAG £23.00

ITEM: 0043 | MEDWYNS POTATO FERTILISER 6:10:10

A fertiliser with the right ratio to grow bumper potato crops, a specially formulated granular fertiliser with essential nutrients in the correct balance to give tastier and increased yields of quality potatoes.

Price 5kg bag £11.50

ITEM: 0044 | AS ABOVE IN 10KG BAG £19.75

ITEM: 0045 | AS ABOVE IN 20KG BAG £35.28

ITEM: 0046 | MEDWYNS COMPLETE BASE FERTILISER WITH TRACE ELEMENTS 5.3:7.5:10+TE

This is the one to use when preparing all your beds in the spring. Has all the nutrients that plants need to grow to their optimum. Not only does it have an excellent NPK ratio it also has the required level of trace elements to make your soil more receptive to the roots. Top Chrysanthemum grower Ivor Mace recommends 'Used for preparing vegetable beds & as a base fertiliser for making your own composts, also as a chrysanthemum number 1 can be used on pots of late flowering chrysanthemums at one teaspoonful per week until the plants come into bud'.

Price 5kg bag £14.50

ITEM: 0047 | AS ABOVE IN 10KG BAG £25.00

ITEM: 0048 | AS ABOVE IN 20KG BAG £35.00

ITEM: 0049 | MEDWYNS COMPLETE HN (High Nitrogen) BASE FERTILISER WITH TRACE ELEMENTS 10:7.5:10.2+TE

The fertiliser that many of the top exhibitors use when preparing their leek and onion beds. This high nitrogen formulated fertiliser contains a slow release of different types of Nitrogen as well as the required level of trace elements. Top Chrysanthemum grower Ivor Mace recommends 'with trace elements for preparing vegetable beds where extra nitrogen is needed & as a base fertiliser for making your own potting composts, also as a Chrysanthemum number 2 can be used on pots of late flowering chrysanthemums at one teaspoonful per week after the plants come into bud, until they show colour'.

Price 5kg bag £16.25

ITEM: 0050 | AS ABOVE IN 10KG BAG £25.50

ITEM: 0051 | AS ABOVE IN 20KG BAG £45.50

ITEM: 0052 | MEDWYNS FISH BLOOD AND BONE 5:5:6

The most popular of all the organic base fertilisers. This traditional style fertiliser, still favoured by many gardeners, provides the three major nutrients needed for strong, healthy growth. Can be applied prior to sowing or planting and as required throughout the growing season. 100% Organic.

Price 5kg bag £8.75

ITEM: 0053 | AS ABOVE IN 10KG BAG £13.50

ITEM: 0054 | AS ABOVE IN 20KG BAG £20.50

**ITEM: 0055 | MEDWYNS GENUINE CALCIFIED SEAWEED
(Exclusively sourced)**

This is the real calcified seaweed and not a substitute and sourced outside of Europe where it's legal to harvest it. This is always part of the top exhibitor's potato mixture as well as used in bore hole mixtures for the tap roots. It has been specifically ground down to my specification and is as fine as is possible to get it so that it quickly gets to work within your soil or compost mixture.

Price 5kg bag £12.50

ITEM: 0056 | AS ABOVE IN 10KG BAG £20.25**ITEM: 0057 | AS ABOVE IN 20KG BAG £34.00****ITEM: 0058 | MEDWYNS POULTRY MANURE PELLETS 4.5:3.5:2.5**

Poultry manure products are one of the most commonly available non-chemical fertilisers on the market. Poultry manure is a useful source of nitrogen, the main nutrient that plants need for green leafy growth. It also contains smaller amounts of other important nutrients.

Price: 5kg Bag £8.00

ITEM: 0059 | As above in 10kg bags

Price 10KG BAG £12.20

ITEM: 0060 | AS ABOVE IN 20KG BAG £22.25**ITEM: 0062 | GARDEN LIME**

An element that is so essential for every vegetable grower in order to maintain the correct level of lime within the soil. I recommend having a soil test every year to ascertain what your PH level is.

Price 5kg bag £6.99

ITEM: 0063 | AS ABOVE IN 10KG BAG £9.75**ITEM: 0064 | AS ABOVE IN 20KG BAG £16.75****ITEM: 0065 | LEEK AND ONION FERTILISER 6:8:15 + 3 Magnesium**

A fertiliser I consider to have the correct balance of NPK plus the addition of Magnesium to produce leeks and onions to their optimum.

Price 5kg bag £13.25

ITEM: 0066 | AS ABOVE IN 10KG BAG £22.00**ITEM: 0067 | AS ABOVE IN 20KG BAG £33.50**

ITEM: 0073 | MYCORRHIZA ROOT PLUS

A product for maximising the output of your soil and Growing Mediums with real gains in crop yield. Root+ contains 18 species of mycorrhiza (containing both endo- & ecto-mycorrhiza). 6 cultured and tested strains of microbes. An N-P-K ratio of 3-3-3 from organic Base and mineral nutrients. Adding Root+ at planting time will help develop a huge secondary root system using Mycorrhiza. Application rate 150g per 70lt of compost or 2.5kg per 50 m2. Root+ is not compatible with Brassicas and Beetroots.

PRICE: £14.90 per 500 gram container

ITEM: 0080 | BONE MEAL

Medwyns sterilised Bone Meal is a slow release organic fertiliser to encourage root development. Bone Meal is an organic fertiliser which provides both, nitrogen phosphate and potash in the following ration 3.5- -18.0 - 5.0 three elements essential for healthy plant growth. This slow, steady release of nutrients over a long period make Bone meal an ideal fertiliser for the preparation of leek and onion beds.

Price 5kg bag £12.25

ITEM: 0081 | AS ABOVE IN 10KG BAG £16.20

ITEM: 0082 | AS ABOVE IN 20KG BAG £29.25

ITEM 0083 | SEAWEED MEAL

An organic, natural soil conditioner that will encourage strong healthy growth all-round the garden. Seaweed Meal also encourages beneficial soil microbes and makes valuable humus; It's also rich in minerals and trace elements. Seaweed Meal is an ideal spring lawn dressing and also an excellent compost activator. Some exhibitors use this material in their bore hole mixes for carrots, parsnips etc. Use in Runner Bean trenches at the rate of 70gram per metre run of trench. Also used as a surface dressing which is raked into the soil prior to planting when growing a range of giant vegetables.

Price £25.74 for 5kg bag

ITEM 0084 | as above. Price £46.80 for 10kg bag

ITEM 0085 | as above. Price £65.00 for 20kg bag

ITEM: 0086 | SULPHATE OF POTASH (0:0:50)

Fast acting source of potassium to facilitate development of healthy Vegetables fruit and flowers. Used extensively in the preparation of vegetable beds as well as in mixes for root crops, tomatoes etc.

Price 5Kg bag £16.50

ITEM: 0087 | AS ABOVE IN 10KG BAG £26.00

ITEM: 0088 | AS ABOVE IN 20KG BAG £48.50

ITEM: 0089 | SINGLE SUPERPHOSPHATE (Powder Form 0:18:0)

Single Superphosphate or superphosphate of lime, $\text{Ca}(\text{H}_2\text{PO}_4)_2$, comprises of 16% water soluble phosphate which is readily accepted by crops. Encourages strong root growth and healthy plants. Fruit, Root and Seed crops will produce higher yields and ripening will be improved. Used extensively in soil preparation as well as in exhibition root mixes.

Price 5Kg bag £10.35

ITEM: 0090 | AS ABOVE IN 10KG BAG £16.50

ITEM: 0091 | AS ABOVE IN 20KG BAG £30.00

ITEM: 0092 | TRIPLE SUPERPHOSPHATE (Powder Form 0:46:0)

Triple Superphosphate typically contains 46% phosphate. A source of high Phosphorus that's vital for photosynthesis to occur, the process by which plants convert sunlight into carbohydrate molecules, i.e. sugars. Triple Superphosphate is a fruit and vegetable ripener, which will provide a fast action, long lasting supply of phosphorous for plants during the growing season.

Price 5Kg bag £16.35

ITEM: 0093 | AS ABOVE IN 10KG BAG £25.65

ITEM: 0094 | AS ABOVE IN 20KG BAG £49.00

ITEM: 0100 | DRIED BLOOD – 12%N

Rich in nitrogen, Dried Blood is a fast acting, 100% organic fertiliser that promotes above-the-ground growth and is especially beneficial when producing leaf crops such as lettuce, spinach and cabbage. It also makes an excellent top dressing for leafy plants grown in the greenhouse or conservatory. Dried Blood can be applied as a top dressing throughout the growing season or added to pot mixes for onions and leeks.

Price 5Kg bag £16.85

ITEM: 0101 | AS ABOVE IN 10KG BAG £27.10

ITEM: 0102 | AS ABOVE IN 20KG BAG £46.85

ITEM: 0103 | TRENCH FERTILISER 6:11:18 (with added trace elements)

Slow-release fertilizer with high trace element content. A special formulation for the exhibition grower of leeks, onions, sweet peas, delphiniums and new rose beds, etc. Add to beds and trenches as soon as possible after the old crop is removed. Use over winter to prepare soil for exhibition standard flowers and vegetables (chrysanthemums, Dahlias, Leeks, Onions, Sweet Peas, Roses, etc.).

Price 5Kg bag £11.65

ITEM: 0104 | AS ABOVE IN 10KG BAG £19.65

ITEM: 0105 | AS ABOVE IN 20KG BAG £38.00

GROWING MEDIA

We can deliver quarter, half and full pallets of 42 bags. ITEM 6015 | EXHIBITION POTATO MIXTURE

Everris (Humax) have made an exhibition potato mixture to my own specification. Made with all the nutrients to produce top-quality Show potatoes. The compost comes in a 75 litre plain white plastic bag with the product name stamped along the edge of the bag. They will be delivered to your own location (Mainland) provided the ground is level for a pallet truck to be wheeled on.

THIS IS AN ORGANIC PEAT BASED PRODUCT

PRICE PER BAG £10.25

ITEM 6016 | EXHIBITION POTATO MIXTURE

PRICE PER PALLET OF 42 BAGS DELIVERED TO YOUR ADDRESS £430.00 Please phone or email for delivery charges. We can also offer Half and Quarter pallets. Please ring for a quote

ITEM 6019 | LEVINGTON F2S

A fine peat mixture specifically developed for seedlings and young plants to develop a strong rooting system, contains silver sand a very popular mix for exhibitors who use it as a major part of their bore hole mixtures for root crops.

Price per bag £9.50

ITEM 6020 | LEVINGTON F2S

PRICE PER PALLET OF 42 BAGS DELIVERED TO YOUR ADDRESS £399.00

Please phone or email for delivery charges.

ITEM 6029 | HUMAX MULTIPURPOSE ORIGINAL COMPOST 60 litre bags (CONTAINS NUTRIMATE)

Probably the best Multipurpose compost you can buy. On recent trials we conducted it performed far superior to other Growing Media. Please phone or email for delivery charges. Contains Silver Sand.

PRICE PER BAG FOR COLLECTION £6.50

ITEM 6030 | HUMAX MULTIPURPOSE ORIGINAL COMPOST 60 litre bags (CONTAINS NUTRIMATE)

PRICE PER PALLET OF 54 – 60 Litre BAGS DELIVERED TO YOUR ADDRESS £351.00 Please phone or email for delivery charges.

ITEM 6025 | ECO-LIFE POTTING SOIL 45L (BOXED)

Eco-Life is 100% organic potting soil, crafted from natural ingredients in small batches to enable growers of all abilities to grow healthy and productive plants. Eco-Life contains everything a plant needs for the first 3 months. Fully loaded with the basic nutrition required for full-term growth, with minimal additional inputs required.

In 2023 Gareth Griffin broke the world record for heavyweight onion using this potting soil in raised beds. Eco-Life soil can be reused many times over, it is high-priced but is a great product with superb performance.

PRICE PER BAG £39.00 INCLUDING DELIVERY

ITEM 6026 | ECO-LIFE POTTING SOIL 1000L (Bulk Bag)

PRICE PER 1,000 litre Bag £600.00 INCLUDING DELIVERY

ITEM: 4001 | CANNA COCO PROFESSIONAL PLUS

This is a pure, organic product with a homogeneous structure that has had a full buffering, eliminating the side effects of growing on coir. Coco Professional Plus is free of harmful viruses and soil diseases, thanks to CANNA's unique production process. CANNA Coco Professional Plus has a complex water/air system that provides the ideal conditions for growing plants. CANNA Coco Professional Plus can be used a number of times and makes an excellent potting mix improver after use. 50 litres bags. If ordering large Quantities please phone for Pallet Price.

Price £15.00 per bag.

ITEM 4002 | CANNA TERRA PROFESSIONAL PLUS

CANNA Terra Professional Plus is the purest potting mix possible for plant cultivation. The formulation is specifically developed for indoor growing. Of course, it also gives good results outside. CANNA Terra Professional Plus is composed of airy peat moss and types of tree bark that have an antiseptic action. They promote exceptional root development and the formation of thicker stems. CANNA Terra Professional Plus contains trace elements and chelates which protect the plants during growth. If ordering large Quantities, please phone for Pallet Price. Has been used to grow some very large onions!!

Price £15.50 for 50 litre bags

ITEM 4003 | BIOCANNA BIOTERRA PLUS

This is a professional quality potting compost. It incorporates a high-quality organic fertiliser source, with a premium quality peat to deliver your plants a perfect concoction of food and water at all times. Not only is it 100% organically certified according to the strictest OMRI standards, but it also is completely free from any animal ingredients; it is a Vegan-friendly product to boot! 50 litre Bag If ordering large Quantities please phone for Pallet Price.

Price £15.00 per bag.

ITEM 6021 | LEVINGTON M2

(The products listed below will contain a percentage of wood fibre and other products to comply with current legislation and guidelines. These products will have slow-release Nitrogen added to compensate for the draw down of nitrogen from the added fibre as well as extra H2Grow wetting agent).

A medium grade and strength peat mixture that's perfect for the first potting stage in a range of plants including onions, Leeks, and Celery as well as a large range of bedding plants.

PRICE PER BAG FOR COLLECTION £8.28

ITEM 6022 | LEVINGTON M2

PRICE PER PALLET OF 42 BAGS DELIVERED TO YOUR ADDRESS £348.00

Please phone or email for delivery charges.

ITEM 6023 | HUMAX PROFFESIONAL MULTI PLANTER PEAT FREE COMPOST

The Humax peat-free planter is the perfect blend of sustainable raw materials to provide the perfect home for whatever you wish to grow -Perfect to grow Tomatoes, courgettes, and peppers, as well as a range of salad crops and vegetables.

Anything's AutoPot-able!

Because AutoPot Watering Systems
allow plants to control their own irrigation
they can perfectly satisfy the needs of
absolutely any variety. It's power-free,
automatic plant watering at its very best!

No more daily watering, systems can be left unattended for weeks

No need for electricity, pumps, timers, or mains water pressure

Gravity pressure from a water tank is all that's required

Environmentally sustainable, no water is lost to the ground

Can be used to grow any crop variety; edible or ornamental

Explore The Range!

AutoPot Watering Systems available now from Medwyn's Of Anglesey
