Time To Grow

For 10 years Medwyn has been using AutoPot to irrigate and feed his prizewinning veg automatically, power-free, and 100% responsively. Think of all that time without hand watering. Think of all that time saved to devote to his plants, all that time to grow. Think, 'what am I waiting for?'

No more daily watering, systems can be left unattended for weeks

No need for electricity, pumps, timers, computers or running water

100% responsive - irrigates on-demand for phenomenal results

Use throughout hosepipe bans - no mains water pressure required

Grow in pots, beds, plots, growbags, seed trays, planters and more!

Explore The Range!

AutoPot Watering Systems available now from Medwyn's Of Anglesey

WELCOME TO THE 2026-2027 SEED, PLANT AND SUNDRIES CATALOGUE

Firstly, and most importantly, I would like to thank all of our existing and loyal customers for your continued support. Some of you have been ordering from us for many years, and I never take that loyalty for granted. It really does mean a great deal to me and to everyone here at Medwyns.

As with many businesses, we have seen significant increases in our running costs over the past year. Heating, lighting and courier charges have all risen, and unfortunately this has meant that we have had to increase the prices of some plants and fertilisers. We have tried very hard to absorb as much of these increases as possible and to keep any price rises to an absolute minimum.

One of the biggest frustrations for me last year was the serious problems we experienced with the postal service. Sadly, a number of plants did not reach their destinations in the condition we would expect, which was extremely disappointing — particularly when we know how much time and effort our customers put into growing their plants.

The situation became so serious that my own MP contacted the postal authorities on our behalf. Unfortunately, despite this intervention, the problems were not resolved. Wherever possible, we sent replacement plants, and where that was not practical, we issued full refunds. I would like to thank everyone affected for their patience and understanding.

For the coming season, we have therefore made the decision that **all live plants will, wherever possible, be sent using a 24-hour tracked service.** We hope this will give us a more reliable service and, just as importantly, give you greater peace of mind when your plants are on their way to you.

I hope that over the past year you have enjoyed growing, eating and perhaps exhibiting our vegetables — whether at your local horticultural shows or at National level. We always enjoy hearing from customers about their growing successes, and it is particularly rewarding to know that varieties supplied by Medwyns have helped produce prize-winning vegetables on the show bench.

Please remember to visit our **website and online shop regularly.** Throughout the year I personally select new cultivars and other products which I believe may be of interest to our customers. Not everything we stock will necessarily appear in this printed catalogue, so the online shop is the best place to keep up to date with new additions.

New Varieties and Premium Plants

Every year we look for new and exciting varieties of vegetables to add to our range. These new varieties will be identified by a **star** alongside the variety name.

We are also continuing our **Premium range of plants**, which are sent using a franked 24-hour, unsigned service in strong cardboard boxes. These plants are grown in the largest-size Jiffy-7 pellets and each individual plant is carefully wrapped in a polythene bag and secured to the end of the box. This helps to minimise movement and reduce the risk of damage during transit.

When your plants arrive, they should be ready to pot on into **4- or 5-inch pots.**

Seedlings are also posted in strong plastic containers to give them as much protection as possible while they are in transit.

Free Seed Offer

As a trial for the coming season, we are offering **two free packets of a potential new culinary and/or show-bench variety with every order over £150.00**, provided the order is placed before **1 March 2027**.

Seed orders will normally be posted as soon as possible. Occasionally, however, dispatch may be delayed while we wait for fresh seed stocks to become available. All orders received by mid-December will be posted before Christmas.

Please note: No seed will be posted between 18 December 2026 and 6 January 2027.

Our office hours are **9.00am to 5.00pm**.

Seed Quality and Ordering Information

We take great care with the way we package our seed. All seed is heat-sealed in **Aluminium Foil Mylar vacuum bags** to help maintain freshness for as long as possible before being placed in padded envelopes for posting.

I would also like to remind customers that Medwyns operates strictly as a **mail-order business and does not have a retail outlet**. Unfortunately, this is something that some customers have only discovered after travelling to us, and I would much rather make this clear from the outset.

Please note that the sale of **all plants and Allium bulbs is restricted to the UK only**.

Some of our seed may be chemically treated, so please take sensible precautions when handling and sowing it.

We aim to process and respond to all orders as quickly as possible, and we accept all major credit and debit cards.

Due to increased banking charges, we are unable to accept cheques for less than £10.00.

I hope you enjoy looking through this catalogue and, more importantly, that you find plenty of varieties to tempt and inspire you for the coming growing season. Whether you are growing for the kitchen, the garden, or the show bench, we hope that something in these pages will help make 2027 a successful and enjoyable growing year for you.

Our telephone number, email address and online shop details can be found on the back cover of this catalogue.

Please make sure you enter the correct P&P charge for Seeds and Sundries when placing your order. If you are unsure which charge applies, please email us or telephone during office hours and we will be very happy to help.

And please do keep checking our **online shop** throughout the year. We will continue to add new varieties and products as they become available.

Finally, thank you once again for your custom, your loyalty and your continued support. We genuinely appreciate every order we receive and every message we get from customers telling us about what they have grown.

We hope you have a wonderful growing season in 2027 — and that you enjoy **growing, eating and showing your vegetables** as much as we enjoy helping you grow them.

With very best wishes from all of us at Medwyns.

AUBERGINES**ITEM 3006 | MEATBALL F1**

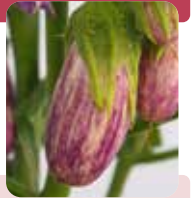

This is an excellent meat alternative, possibly the meatiest variety currently available. The fruit has dense, moist flesh that catches the flavour and texture of the meat. Suitable for use in containers, outdoors, and unheated glasshouses. Never forget that aubergines have 18 points when judged at competitions, next to the highest points available, and are worth considering in collections or in 'any other vegetable class'.

Price: £1.50 for 6 seeds.

**ITEM 3015 | JEWEL MARBLE F1**

A new variety having a white base with purple stripes. Typically, 15 to 20 fruits per plant. Each fruit is generally 10cm long with a weight of 80 - 100g. Compact habit and ideal for containers (13 to 15 cm pots). Support with a cane when bearing fruit. Never forget that aubergines have 18 points when judged at competitions, next to the highest points available, and are worth considering in collections or in 'any other vegetable class'.

Price: £1.50 for 6 seeds

**ITEM 3016 | WHITE KNIGHT F1**

Attractive, shimmery white fruits that are typically 17cm in length. The delicious flavour makes them ideal for roasting, baking, or serving fresh. Never forget that aubergines have 18 points when judged at competitions, next to the highest points available, and are worth considering in collections or in 'any other vegetable class'.

Price: £1.50 for 6 seeds.

**BROAD BEANS****ITEM 3002 | MASTERPIECE GREEN LONGPOD**

Broad Bean Masterpiece Green Longpod is a reliable and popular long podded variety which has 6 or 7 flavoursome beans per pod. The tender green beans are excellent for freezing.

Price: £1.60 for 20 beans

**ITEM 3003 | DUET**

A very compact variety producing small, tasty white beans, typically 12-15mm in size. Approximately 4-5 beans per pod. Suitable for the small garden or pots on the patio. Perfect for the kitchen.

Price : £2.90 for 30 seed

**ITEM 3004 | AQUADULCE**

The standard broad bean variety for overwintering. Very good cold tolerance, semi compact plants with high yields of pods containing 6-7 white beans per pod. Grows to approximately 90cm in height. A very early maturing variety. Sow October – November or February to March.

Price: £2.00 for 20 beans

ITEM 3005 | EXHIBITION LONGPOD WHITE BEANS

Our own re-selected stock from the old show-winning variety Bunyards Exhibition. An ideal variety for the show bench and culinary use. Heavy crops of extra-long pods of white seeded excellent flavoured beans. The pods can grow to 30cm in length and can contain up to 10 beans per pod.

Price: £2.20 for 10 beans.

**FRENCH BEANS****ITEM: 3009 | RESELECTED EXHIBITION, CLIMBING FRENCH BEAN (Prince)**

A top-quality exhibition and kitchen variety. Plant out at 18 inches apart and leave each plant to climb up at least four-foot-long canes. Stop all leading shoots as they get to the top of the cane. Produces an enormous crop from one plant. A variety guaranteed to supply you with plenty of top quality show beans measuring between seven and eight inches in length.

Price: £2.00 for 10 beans

**ITEM: 3010 | EXHIBITION DWARF FRENCH BEAN, HAWKSBURY WONDER**

This variety is unbeatable on the show bench winning at all the major shows and is perfect for the kitchen having excellent flavour. The plant grows to about 18 inches in height and is full of long, tender, narrow, flat beans, some that grow over 10 inches in length. Allow approximately ten weeks from sowing to showing.

Price: £2.00 for 10 beans

**ITEM 3014 | COBRA CLIMBING DWARF FRENCH BEAN**

This is a very high-quality climbing bean with a long harvest period. Long, round, very straight pods with a bright green colour on a smooth surface. Pods are from 7 to 8 inches in length and have been known to win on the show bench. This is a stringless bean.

Price: £1.60 for 30 beans

**ITEM: 3270 | VOLTAGE Wax Bean yellow podded (AVAILABLE ONLY ONLINE)****RUNNER BEANS****ITEM: 3007 | RESELECTED EXHIBITION VARIETY – STENNER (re selection from Enorma)**

The only variety to really grow for exhibition which is also first class for kitchen use. It regularly produces pods between 15 and 19 inches in length whilst still retaining its refined smooth shape. The beans have a very short handle and, when well grown, are deep green in colour. A variety that was constantly re selected by the late Brython Stenner from the old Enorma. Rarely beaten.

Price: £2.00 for 10 beans

**ITEM: 3008 | TENDERSTAR**

A unique red and pink bicolor variety from 15 years of British breeding. Runner Bean 'Tenderstar' combines the valuable characteristics of French beans with those of runner beans, resulting in extra smooth, very fleshy, stringless pods with an exceptionally tender texture and true runner bean flavour. Being virtually self setting, this prolific variety produces masses of 20cm (8") long pods throughout the summer, whatever the weather.

Price: £2.00 for 10 beans

**ITEM: 3237 | BRITANNIA**

Exclusive to Medwyns re selection from Enorma

A classic Runner Bean that grows easily to 17 inches in length, I envisage this one being a major challenge to the well established Stenner. Intricate crosses were made by Tozers to achieve this bean.

Price: £2.00 for 10 beans

**ITEM: 3200 | LONGEST RUNNER BEAN (Jescot-Long UN)**

A very special fleshy bean that's been reselected for sheer length. Definitely not one for the quality classes, but is guaranteed to win in the 'Longest Runner Bean class'. A delicious fleshy bean to eat when picked young.

Price: £3.80 for 8 beans

**ITEM: 3208 | POLESTAR Stringless**

Salmon-coloured edible flowers come out in big numbers which turn into bunches of stringless beans reaching an impressive 25cm (10in) in length. Pick them young if you like tender and sweet beans as well as a continuous crop. Polestar keeps its vigour throughout the season and the flowers set very easily whatever the weather and when pollinator (bees and flies) numbers are low.

Price: £1.50 for 10 beans

**BEETROOT****ITEM: 3012 | PABLO F1 RHS Award of Merit 2005**

A banker on the show bench as well as in the kitchen. It possesses the best skin finish possible coupled with an exceptionally uniform round shape. It has a particularly attractive red internal coloration and stands for a very long period without going woody.

Price: £2.60 for 200 seed

**ITEM: 3013 | CARDEAL F1**

A variety that I introduced a few years ago possessing a lovely globe shape with intense erect tops. The taste is really sweet owing to the very high sugar content. This is proving to be a winner on the show benches.

Price: £2.90 for 200 seed

ITEM: 3017 | RESELECTED EXHIBITION, LONG BLACK BEET
Reselected Own seed

Undoubtedly the best variety for the long beetroot and Tap Root classes, it grows to an exceptional length with almost black coloured flesh and hardly any white rings. I have been re selecting this variety for many years and have almost eliminated the screwing or twisting action similar varieties seem to have.

Price: £4.20 per packet

**BROCCOLI SPROUTING****ITEM: 3019 | RUDOLPH**

A very early variety of high quality, well coloured, good sized purple spears. Very high yielding variety for harvest from November to February.

Price: £2.30 for 40 seed

**ITEM: 3020 | BROCCOLI STEM - HIRZIA F1**

New sweet stemmed broccoli, a taste sensation! Why wait until spring for sprouting broccoli? Hirzia will crop from July and produce the main head like regular broccoli, which then splits into spears. Tasty florets on edible spears that have side shoots offering more florets to harvest. Sow March-June, Harvest Late July-Oct.

Price: £4.05 for 40 seed

**BRUSSEL SPROUTS****ITEM: 3021 | BRIGHT F1**

Early to mid-season variety maturing from mid-October to mid-November, approximately 175 days. Produces a vast amount of smooth round buttons per stem. Very good holding ability until mid-November and very good lodging resistance. A tall plant with suitability for use as sprout tops. An excellent variety.

Price: £3.05 for 40 seed

**ITEM: 3022 | TRAFALGAR F1**

A very reliable late mid-season variety (mid-November to mid-January). It produces lots of medium sized, sweet & crunchy sprouts that don't have a bitter taste. Brussels sprouts Trafalgar F1 is tall but sturdy and has been bred in the UK so is very hardy & well suited to our climate.

Price: £3.05 for 40 seed

**ITEM: 3023 | BREL F1**

A Mid Season Variety that matures from November and should be ready for your Christmas dinner. A tall variety with a large number of buttons per stem giving a high yield. Healthy round buttons with a sweet mild taste. Plant habit features small tops and performs well, even on less fertile soils.

Price: £3.05 for 40 seed

**ITEM: 3024 | BRECHIN F1**

Christmas variety maturing from mid-December to late February, approximately 225 days. High yielding mild non bitter taste. Produces many uniform-sized deep green buttons. Very good holding ability and disease resistance.

£3.05 for 40 seed

**ITEM: 3273 | CRIPTUS F1**

This is another brilliant club root resistant brassica that will allow you to harvest a bumper crop of sprouts through December including the Christmas period. If you have club root on your land or not, this is a brilliant new variety.

Price £4.50 for 40 seed.

**CABBAGE RED****ITEM: 3025 | ROVITE F1**

A mid-season, 120 day, large heading red cabbage for fresh market and short term storage. Suitable for both 1Kg and 3Kg head production. Can be used for overwintered module raised crops.

Price: £2.45 for 40 seed

**ITEM: 3027 | ROZERA F1**

A new large headed type Red Cabbage with excellent internal structure and having a bright deep red colour. There is very little white within the internal structure. Given adequate space, the heads can easily grow to over 3 kilos. This will certainly make its mark on the show bench.

Price: £2.65 for 40 seed

**ITEM: 3032 | ROMUS F1 *NEW***

A different type of red cabbage that, after peeling off a couple of outer leaves, turns to a pinkish colour that doesn't bleed when cutting up to produce Coleslaw. Excellent Uniformity and Heat tolerance. Medium-sized plant that grows quickly, 70-75 days. Stays for a long time after ripening. Weight 1.2 kg.

Price: £3.00 for 40 seed

**ITEM: 3272 | LODERO F1 (Club Root Resistant)**

Clubroot-resistant, maincrop variety typically maturing after 135 days from transplanting (so that makes it same maturity as Ruby Perfection F1). Good storage potential. A potential winner on the show bench in the Red Cabbage Class.

Price: £3.10 for 40 seed

CABBAGE GREEN Summer/Autumn

ITEM: 3030 | KILASTOR F1

This replaces Kilaton that has been withdrawn by the breeder. A high-yielding variety with very good clubroot resistance. It is also resistant to White Blister. Provides very uniform and reliable crops. Features good long-term storage capabilities. Attractive external green colour. The heads are large and smooth and weigh between 2.5 and 4Kg. Excellent for making Coleslaw.

Price: £4.20 for 30 seed

ITEM: 3223 | CAMPBELL F1

Large heading, late maturing, 145-day, white cabbage which would be perfect for the Autumn Shows. Excellent internal structure for coleslaw production. Medium resistance to thrips, oedema and Phytophthora storage rot. Suitable for medium to long-term storage until late June.

Price: £2.90 for 40 seed

ITEM: 3031 | SIR F1

A mid-season primo-type cabbage which has a very deep green colour. A particularly high quality cabbage with a truly exceptional taste. Not a large type but will grow to over 0.5 kg (1lb) in weight. Customers rave about its flavour.

Price: £2.60 for 40 seed

ITEM: 3033 | BRIGADIER

A wonderful cabbage, capable of growing to a large size given adequate space. Superb shape with a beautiful leaf formation and a solid heart. This will be a winner on the show bench for its sheer quality.

Price: £2.60 for 40 seed

ITEM: 3035 | COMPASS F1

A Japanese bred cabbage that can grow to a very large size. This is replacement for Globemaster. A top quality cabbage for the kitchen or the show bench.

Price: £2.60 for 40 seed

ITEM: 3036 | CONSTABLE *NEW*

A replacement for Chancellor that's been discontinued. A large round solid headed variety that keeps well without splitting. Superb taste and certain to be amongst the cards at next summer's Shows.

Price: £2.60 for 40

ITEM NO 3259 | CABBICE

Super sweet Round green cabbage with a unique intense sweet flavour with crisp thick leaves giving you a crunchy texture similar to Iceberg lettuce and would be perfect served raw in salads. Grows up to 2kg in weight. Sow February to July to harvest from May to October. Plant out March to August.

Price £2.60 for 40 seed

POINTED CABBAGE Summer/Winter

ITEM: 3037 | BARON F1 *NEW*

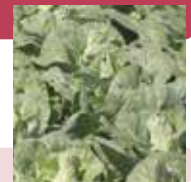

Mid-to-late season variety maturing through to late Autumn. Very uniform, giving solid heads when mature. Can be used throughout the summer, and in the autumn. Good colour retention and suitable for storing in late autumn

Price: £2.60 for 40 seed

ITEM: 3028 | REGENCY F1

An excellent new hybrid variety producing compact 400 to 500 gram heads. Healthy base, good holding capability without splitting as well as having excellent flavour. Harvest June to October but can be overwintered from an autumn sowing depending on location and prevailing conditions.

Price: £2.60 for 40 seed

ITEM: 3029 | TANTOUR F1 *NEW*

A well-shaped hybrid suitable for greens production during the spring, summer and autumn and hearts production in the spring and autumn. Attractive dark green outer leaves with bright green inner head. Inner leaves are tender and crunchy, with a sweet, mild cabbage flavour. Uniform and holds well in the garden until used.

Price: £2.60 for 40 seed

CABBAGE Autumn/Winter

ITEM: 3038 | LUCAS F1 *NEW*

Large heading, late maturing, 145-day, white cabbage for processing after storage. Can be stored until late June. This cabbage gives top quality heads with excellent internal structure making it perfect for your home Coleslaw. This will make a brilliant selection for your shows during September and October. It also has some resistance to thrips.rips.

Price: £2.80 for 40 seed

CABBAGE SAVOY

ITEM: 3039 | RIGOLETTO F1

An excellent long-standing winter type for use from November through to February. Medium sized, round, dark green heads with very few outer leaves and quite resistant to frost.

Price: £2.60 for 40 seed

ITEM: 3040 | SERPENTINE F1

Early 90-110 day variety suitable for harvest from the end of July to the end of September. Can also be sown to mature from the end of June to early July from a polythene covered crop. Improved level of resistance to Xanthomonas. Striking bright green medium to large sized heads.

Price: £2.60 for 40 seed

CABBAGE GIANT

ITEM: 3238 | HEIRLOOM CORNISH VARIETY Our own selection from WORLD RECORD stock

this is the giant cabbage of all cabbages, an open-pollinated strain that the giant vegetable growers use with the capabilities to grow to over 100 lbs in weight. this is our selection of the genuine Cornish giant. a real heavyweight given the space to grow at around 2 metre square. sow from November to January in a propagator and grow on in a frost-free greenhouse.

Price: £5.20 for 40 seed

ITEM: 3041 | BRUNSWICK

An open pollinated old variety and you will need a barrow to move it around when harvested. Anything over 10kg (22lbs) is a reasonable expectation on well cultivated ground.

Price: £2.70 for 40 seed

ITEM: 3043 | KLIMARO F1

A vibrant and attractive Red Cabbage with vivid red colour both inside and out. It has also produced the World's Largest Red Cabbage at 23.2kg (51.15lbs) which set a new World Record in 2016 at Malvern by Dave Thomas Cornwall. The main strengths of Klimaro are its long term storage and internal quality which it maintains even after a long term storage period.

Price: £4.10 for 30 seed

CALABRESSE

ITEM: 3221 | IRONMAN F1

A vast improvement on the older varieties. It possesses the usual advantages of a hybrid - vigorous habit with excellent uniformity and high yields of larger than normal heads.

Price: £2.20 for 40 seed

ITEM: 3222 | MONCLANO F1 (Club root resistant)

Monclano is a club root resistant variety which produces a firm, domed head with a good standing ability. To be planted in June to July.

Price: £4.20 for 40 seed

ITEM: 3251 | PHAR LAP F1 *NEW*

Early summer variety. Very uniform maturity and cutting period and produces firm, well-domed heads with short branching: excellent density and very heavy heads for the Autumn period. Price:

£2.70 for 40 seed

ITEM: 3257 | STICCOLI

A hybrid of Broccoli and Chinese kale. Produces green broccoli spears on edible stems which taste similar to asparagus. High in vitamins including A and C plus other minerals. During growth it's important to pinch out the first head at an early stage as it encourages the side shoots to develop. Transplant March June to harvest June through to October.

Price: £2.75 for 40 seed

CAPSICUM SWEET PEPPER

Unless you live in the south of the country, it's better to grow Peppers and Chillies indoors; initially in a slightly heated greenhouse but afterwards a cold greenhouse or polytunnel will suffice.

ITEM: 3042 | CHOUCA F1

A bright green to red Blocky variety that is easy to grow, an early maturing sweet pepper that is ideal for an unheated greenhouse or Polytunnel. Good disease resistance. A very adaptable variety.

Price: £2.80 for 5 seed

ITEM: 3044 | CAMPOR F1

As Item 3042 but bright yellow Blocky variety that is easy to grow, an early maturing sweet pepper that is ideal for an unheated greenhouse or Polytunnel. Good disease resistance.

Price: £2.80 for 5 seed

ITEM: 3056 | MARMARA F1 *NEW*

The fruits are smooth, glossy, and conical, growing roughly 18-20 cm long. They transition from a dark green to an intense, vibrant red as they ripen. These are so nice and sweet that my great grandson walks around eating them like an apple.

Price: £2.50 for 5 seed

CAYENNE PEPPERS Chilli

ITEM: 3045 | CAROLINA REAPER F1

Currently the World Record holder for the hottest chili with a SHU reading of 1.5 to 2 million. Once you get over the extreme heat there is a fruity-like flavour, giving a sweet-hot combination. Fruit is typically 5cm long by 3cm wide.

Price £3.00 for 5 seed

ITEM: 3046 | BASKET OF FIRE

A prolific-fruiting basket/container chilli with an abundance of hot little fruits on compact, plants. The fruits mature from deep purple through cream and orange to mature to a bright red. Basket of Fire's unique habit makes it a perfect choice for pots and containers. The plants have a good tolerance to cooler weather, which means they go on cropping well into the autumn.

Price: £2.50 for 10 seed

ITEM: 3047 | ARMAGEDDON F1

An extremely hot chili that's reputed to have a scoville unit reading in excess of 1.3 million. The round to pointed shaped fruits feature a distinctive tail and mature from lime green to bright red. Maximum fruit size is 5cm x 3cm but often the overall size is smaller. Needs high temperatures to germinate with the optimum being 27-32°C. Please take care when handling fruit.

Price: £2.50 for 5 seed

ITEM: 3049 | TUDOR'S FIRE

First found by Roy Tudor about 10 years ago as a chance variation on Chili "Prairie Fire". It has been selected for a decade by Ivor Mace. This compact chili will bring its medium-heat fruit through September/October. It makes a nice compact plant in a 2-litre pot, but a 3-litre pot will grow a real show plant whose fruit stands up like candles. It has been named to celebrate the long life of the Welsh Vegetable grower Roy Tudor.

Price: £2.50 for 8 seed

ITEM 3052 | LONG RED CHILI *NEW*

I have been re selecting this for a few years now and it really does grow to very long length with a huge selection to pick from it grows easily to 15 inches plus and with some thinning out it could easily exceed that. A variety for the longest chili or any other veg class. Oh, I nearly forgot, you can eat it as well!!

Price: £2.50 for 8 seed

ITEM 0108 | MEDWYN'S LONG AND SHORT CARROT MIX (To be added to your growing medium) *NEW*

This mix of nutrients is what we use when growing carrots long and stump for exhibition. The packet will include Fine grades of Nutrimate powder, Superphosphate, Sulphate of Potash, Calcified Seaweed and Garden Lime. Recommended method using the following items when doing the full mix - 5 litres of F2S or similar Seed and Modular Growing Media and 5 litres of Canna Coco Fibre or similar, 10 litres of sharp sand and 10 Litres of Bio Bizz. Add the above packet before mixing all together by hand or in a cement mixer.

Price: £9.90 for 700 grams (e) Including P&P

CARROTS Long

ITEM: 3050 | OWN SELECTION LONG CARROT Reselected from New Red Intermediate

Owing to the adverse weather conditions we experienced this summer we only have a limited stock of this winning variety that will only be available online.

CARROTS Other Than Long

ITEM: 3048 | VOLCANO F1

Late maincrop variety, producing smooth-skinned roots. This main season Nantes hybrid produces 8-9" cylindrical roots with good internal and external colour. High resistance to cavity spot, crown disease and late-season re-growth. Very strong, tapered roots, with exceptional resistance to breakage and splitting with a vigorous strong growing foliage.

Price: £2.80 for a minimum of 200 seed

ITEM: 3053 | SPEEDO F1

A fast-growing early Maincrop produces Uniform high-quality smooth roots with a distinct stump end. Average length 8 inches with a diameter of 1.5 inches.

Price: £2.80 for a minimum of 200 seed

ITEM: 3054 | OCTAVO F1

A carrot capable of challenging Sweet Candle with a smooth skin finish, a well stumped end which develops much earlier than Sweet Candle. Very uniform in shape and with a bright orange colour. The carrots in the picture were sown on the 20th May and were the first lot pulled from the bed mid-September.

Price: £2.80 for a minimum of 200 seed

ITEM: 3055 | SWEET CANDLE Sourced and introduced by Medwyn's

What can I say about this variety? It's simply been astonishing on the show benches winning at National and Branch level. I have the finest stock possessing the largest graded seed, from 2.4 to 2.6mm, that gives you superior germination.

Price: £2.90 for a minimum of 200 seed

ITEM: 3057 | FLYAWAY F1

A true stump variety in the traditional manner with heavy shoulders, good form culminating in a truly rounded bottom. It shows good tolerance to the carrot root fly; it is not resistant but is not attractive to the egg-laying flies and the maggots grow poorly on it.

Price: £2.80 for a minimum of 200 seed

**ITEM: 3058 | COVENTRY F1**

Exciting new Chantenay variety, this is a typical style of carrot that used to win many years ago but with far superior colour and Condition. Coventry produces highly uniform, smooth, and attractive roots with good standing ability. Healthy upright foliage. Approximately 96 days from sowing to maturity.

Price: £2.80 for a minimum of 200 seed

**ITEM: 3059 | AURENTINA F1 *NEW***

A carrot that's similar to Sweet Candle with an even brighter and deeper orange colour that runs right through to the root. Quick to mature and needs around 110 days to be ready. Was part of the winning Tap Root collection at the NVS show at Cardiff.

Price: £2.80 for a minimum of 200 seed

**ITEM: 3062 | CASCADE F1**

A hybrid Chantenay variety, very suitable for the Show bench. Cascade produces healthy foliage and smooth, bright, and uniform roots. Approximately 100 days from sowing to maturity. I expect to see this one winning many awards.

Price: £2.80 for a minimum of 200 seed

**CAULIFLOWERS Summer and Autumn Varieties**

When we state the number of days to maturity, it's the date from transplanting which is usually 42 – 49 weeks from your sowing date. For Example, an 85 -90 days maturity Cauliflower would be sown around 127 – 139 days.

ITEM: 3067 | SKIPPER F1 *NEW*

This is a replacement for the SV5818AA. A summer Autumn variety, Very uniform, vigorous plants with erect habit. White curd with good density for an early type. Heavy heads with Excellent curd cover

A variety from the same breeder as Boris that's a top-quality cauliflower. A large and very vigorous variety with superb head cover with the curd being hard, dense and heavy. Takes 105 to 115 days from sowing. (RHS Award of Garden Merit)

Price: £2.80 for 40 seed

**ITEM: 3074 | BORIS F1**

The quality of this cauliflower is superb with the expected uniformity of growth and added vigour. It has really large snow-white curds, which are deep and heavy within a large framework of protective leaves. Allow 12 to 13 weeks from sowing to harvest.

Price: £3.00 for 40 seed

**ITEM: 3255 | ALMAGRO F1 *NEW***

A summer growing Variety with an 80 day growing cycle. Perfect for Multi planting from April May sowings to Harvest Mid July to October. The curds are amazingly well protected even when the heads are fully developed. The florets are well formed giving a nice rounded dome finish. This variety is a regular winner at major shows.

Price: £3.90 for 40 seed

ITEM: 3216 | GRAFFITI F1 AWARD OF GARDEN MERIT RHS 2006

The colour of the curd is phenomenal being a lovely deep lilac and if steamed will retain its colour better than when boiled. The curds are top quality and every bit as good as the white types. Flavour is also superb; you have to grow this one to appreciate how good it really is. This seed is now very expensive.

Price: £3.90 for 20 seed

**ITEM 3217 | ZARAGOZA F1**
(Good Resistance to Clubroot) *NEW*

A high-quality summer and autumn variety, with great flavour and good resistance to Clubroot, producing dense and heavy, crisp white curds. Stands well and the large leaves ensure the pure white curds are well protected. This is now amongst the best of the Cauliflowers to grow for the Show bench.

Price: £3.25 for 40 seed

**ITEM: 3079 | CLARIFY F1 (Club root resistant)**

A cauliflower with resistance to this devastating brassica disease. Depending on its sowing time this versatile variety matures from late summer to late autumn, producing large, excellent flavoured, solid, deep white heads of uniform quality. Height: 45cm (18"). Spread: 60cm (24").

Price: £3.20 for 20 seed

**CAULIFLOWER Late Autumn / Winter Varieties****ITEM: 3018 | CENDIS F1**

A cauliflower to grow over the Christmas period - Late autumn variety maturing in late November to early December in Cornwall, 135-150 days, and late December to early January in Lincolnshire, 160-180 days. Performs best from early planting, late June to early July. Produces deep, dense curds which are easy to cut.

Price: £3.90 for 40 seed

**ITEM: 3026 | CARBIS F1**

This is the variety to grow to fill the gap before the early Summer varieties kick in. Winter Roscoff type, maturing in late March to early April in Cornwall, 250-260 days, and early to mid-April in Kent and Lincolnshire, 260-285 days. Vedis F1 timing with good regrowth in the spring. Good plant vigour and attractive dark leaf. Very healthy foliage; ringspot-resistant gene present.

Price: £3.50 for 40 seed

**ROMANESCO****ITEM: 3236 | GITANO F1**

Romanesco is increasing in popularity as it's eaten raw with dips. Contains more health-giving properties than the regular white cauliflower. Late Summer Autumn variety good against riciness, bracting and red discolouration.

Price: £2.90 for 40 seed

**CELERY**

Items 3081 and 3083 are Exclusive varieties to Medwyn's. Items 3081, 3083, below have all been tested in a propagator to ensure germination. Lightly cover the seed with Fine Vermiculite as they germinate better with diffused light.

ITEM: 3081 | EVENING STAR F1

This is a cross between 'Lathom' and 'Ideal'. A superb quality celery to be expected from an F1 hybrid and just a little later maturing than Ideal. Wide strong stalks with a tinge of pink around the base and having plenty of bulk.

Price: £4.25 per packet

**ITEM 3083 | MORNING STAR F1**

We have some excellent stock of this price winning celery. This has the capacity to produce many petioles, therefore, has the capability of producing some heavy heads. This has been a winner at the highest level of the NVS shows and has the capability of producing some white petioles or stalks.

ITEM: 3228 | CROWN PRINCE

This squash has blue-grey skin with dense orange flesh, this variety is a favourite with cooks for its consistent flavour and all-rounder qualities with a sweet, rich, nutty flavour. The fruit weigh on average 3-4kg. and stores well.

Price: £2.20 for 8 seed

SWEDE

ITEM: 3248 | HELENOR

The most useful of vegetables during the winter months, sow the seed during early and thin down to one when about two inches tall. An excellent source of Vitamin Calcium, Potassium and Magnesium. Creamy flesh with a beautiful purple shoulder. Excellent flavour and very Uniform heads in the row, one of the better Swedes.

Price: £1.90 for 300 seed

ITEM: 3258 | TWEED F1

Tweed has a dark purple top and cream base. It is a larger, rounder Swede than Helenor but maintains a good shape. It has a cream-coloured flesh with a very good flavour. Top class for exhibition and a winner at many shows

Price: £1.90 for 300 seed

SWEET CORN

ITEM: 3138 | EDEN F1 (White Kernels)

Delivers high yields without sacrificing sweet flavour and outstanding texture. Bright white kernels grow on 8 inch cobs. Excellent for eating fresh having the Super-sweet extra flavour and crisp texture; they also have a higher sugar content than many other varieties of sweet corn as well as a slower conversion of sugars and starches. They hold their quality for more than a week after picking. 76 days to maturity.

Price: £2.50 for 30 seed

ITEM: 3139 | INCREDIBLE F1

A very adaptable and vigorous sweetcorn. Performs reliably across Europe and produces large cobs with outstanding sweetness and a crunchy texture. Good resistance to common rust. 90 days to maturity.

Price: £2.50 for 30 seed

ITEM: 3140 | GOLDN EAGLE F1

A mid-early Super Sweet variety that produces medium sized, yellow cobs. Typically, 16-18 rows of grains on a 20cm long cob. Very sweet flavour with tender texture to grains. Medium height.

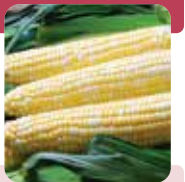

Price: £2.50 for 30 seed

ITEM: 3141 | SOLSTICE F1

The mid-early maturing variety has excellent eating quality. Each 7-in., bicolor ear with yellow/white kernels is packed with straight rows, great tip fill, juicy sweetness and a good corn flavor. This vigorous hybrid has strong emergence, even in cooler temperatures, allowing you to get a jumpstart on the sweet corn harvest. 75 days to maturity.

Price: £2.50 for 30 seed

TOMATOES

All our tomato seed are sold in plastic Vials to make absolutely sure that you receive them undamaged and in prime condition.

ITEM: 3142 | DOMETICA RZ F1

This is an improved selection, with fantastic reports coming back regarding its taste with a Brix scale of 5. Round and suitable for summer cropping. It's very productive and the tomatoes are of excellent quality and great for the show bench. For best germination, cover the seed very thinly, virtually uncovered, with some fine Vermiculite.

Price: £6.10 for 10 seed

ITEM: 3143 | SHIRLEY F1

Undoubtedly one of the nicest tomatoes to eat. A very heavy cropper to the extent that some trusses may need supporting with string to prevent them tearing off the main stem.

Price: £2.90 for 10 seed

**ITEM: 3144 | Y DDRAIG GOCH F1**

This has been bred for me by a professional tomato breeder and the first ever vegetable to be officially registered in the Welsh language. A cross made with Goldstar seed from Charles Maisey and the proven show winner Cedrico that's no longer available. A vine ripe variety with excellent flavour and possessing a large calyx.

Price: £3.50 for 10 seed

**ITEM 3145 | BAUNA F1**

This cultivar has been bred as an improved Shirley, producing classic round red fruits with great flavour. Early maturity and resistant to many tomato viruses. Good sized fruit and could well be another addition for the show bench.

Price: £2.80 for 10 seed.

**ITEM: 3146 | BIG MAMMA**

These beauties are plum-shaped, Skin peels away easily after par-boiling, which means less fuss, less mess and more delicious, thick, creamy sauce! An Indeterminate type that crops really well. Ideal for the large plum tomato class, on a personal note, fast becoming one of my favourites to eat.

Price: £3.20 for 10 seed

**ITEM: 3147 | APERO**

This is a winner in the small tomato class with its bright shiny skin sure to attract the judge's eye. A cherry plum tomato shape that produces the finest tasting tomato that are perfect in pots on the patio or in the greenhouse. These small, glossy fruits are high in vitamins and resistant to disease, making them a perfect crop to grow in your garden and for the Show Bench. Very heavy cropper giving masses of fruit to select from.

Price: £3.20 for 10 seed

**ITEM: 3148 | TERENCE F1**

This variety replaces Tumbler as we feel this is a better cropper. Bred for patio growing in pots and ideal for hanging baskets. The plants cascade over the side of the pot or basket. Superb flavour and cherry shaped red fruits. Fruits typically weigh 18-20 grams with a brix reading of 6%.

Price: £2.90 for 5 seed

**ITEM: 3149 | SUNGOLD**

This variety has been voted by gardeners as one of the sweetest tomatoes they have grown. A heavy cropper from early Summer through to late Autumn. Large cascading trusses of thin skinned small sized tomato of an orange colour. Cordon type. An extremely popular variety.

Price: £2.90 for 10 seed

**ITEM: 3151 | MAISEY F1**

This is another cross from the same breeder as Y Ddraig Goch and named after Charles Maisey who had so much success on the show benches over so many years. A round variety with a good calyx that some exhibitors who have trialled it think it's probably one of the best for exhibiting and eating. To get a winning size on the fruit, thin the trusses down to 5 fruits.

Price: £3.20 for 10 seed.

**ITEM: 3150 | MINOPRIO F1 *NEW***

An Indeterminate variety with long trusses carrying very uniform bright red tasty fruit. This is the perfect variety to grow for the Small Fruited classes at the Shows. This has been a winner at both branch and national level.

Price: £4.20 for 10 seed.

**ITEM: 3204 | SUPER MAMA F1**

The hands down champion in the arena of 'Roma' type tomatoes with an unbeatable armour of unique zesty Italian flavour, vigour, aroma and yield. It bears a bounty of oval 150 – 170g fruit. Strong roots conquer enemies such as blight and blossom end rot.

Price: £2.90 for 10 seed.

**ITEM: 3209 | RIESLING F1**

A fabulous introduction for the mini-Plum tomato class, fruit are about 1½" long and between 15 and 20 grams in weight with a beautiful calyx. The fruit are very uniform in size and shape. A delicious tomato with dense, firm flesh. Outstanding in trials, with excellent disease resistance. Indeterminate, (needs support) cool or warm greenhouse. Winner of an RHS Award of Garden Merit for reliability and good performance.

Price: £3.00 for 10 seed.

**ITEM: 3210 | BUFFALO SUN F1**

A large indeterminate Beefsteak variety, a vigorous grower with an easy open habit. The colour is bright yellow with a red flame on the skin. The ribbed fruit are resistant to late blight and can therefore be grown outdoors in suitable areas.

Price: £2.80 for 10 seed.

ITEM: 3212 | CHERRY BABY F1

This amazing tomato produces cascading, jewel-like clusters of delectable ruby-red cherries. Tomatoes bursting with sweetness, light, and a tingly-tangy 'pop'! 'Cherry Baby's super productive plants soon mass with dense clusters of up to 350 sweet 1 oz. fruits. In a large container or the garden, these tomatoes place a healthy snack within arm's reach. Indeterminate.

Price - £3.00 for 10 seed

ITEM: 3231 | SWEET APERITIF

This red skinned cherry tomato produces excellent yields of delicious, bite sized fruits. Each fruit weighs approximately 12g and when grown in the greenhouse over a long period, up to 500 thin-skinned, shiny red cherry fruits are produced per plant that's about 6kg (13 lbs)! Tomato 'Sweet Aperitif' has a high sugar content and just the right amount of acidity which combine beautifully for a sweet but refreshing flavour. Indeterminate variety and probably the sweetest tomato you'll eat.

Price: £2.50 for 10 seed

ITEM: 3235 | GIANT VARIETY P.G. SELECTION

This is a monster of a tomato, a reselection by Peter Glazebrook of a World Record winning strain. By thinning the trusses down to leave just two tomatoes per truss, Peter has achieved tomatoes in excess of 3lbs each with the best achieving 4½ lbs in weight. The one to grow if only for the fun of entering the heaviest tomato class at your local show.

Price: £3.99 for 6 seed

ITEM: 3271 | GOLDWIN F1

A yellow cherry tomato, Strong plant very productive, Fruit weight around 20-23 grams, Excellent taste. Firm fruit, slightly crispy, with a perfect balance between sweetness and acidity.

Price: £3.00 for 10 seed

ITEM: 3274 | HONEY MOON F1 (Pink Tomato)

Fleshy, sweet fruit, full of flavour! Vigorous plant, very productive. Large, very attractive slightly pink fruits. Compact plant with short internodes. Superb in the garden: very good level of resistance to late blight with resistance gene combination Ph2 and Ph3.

Price: £3.00 for 10 seed

ITEM 3276 | UKRANIAN RED *NEW*

This is a reintroduction of a variety that was given to me by an old lady who had travelled to Ukraine many years ago and gave me some seed. It's a large round with great taste and a vivid red internal colour. It tastes delicious and well worth growing.

Price: £2.50 for 10 seed

OUTDOOR TOMATO**ITEM: 3205 | NAGINA F1**

British bred F1 blight resistant suitable for greenhouse or outdoor Tomato a Roma or plum tomato variety. Producing an abundance of medium sized red plum fruits around 50g, which are ideal for cooking, slicing or use in salads and sandwiches. This variety is blight resistant and can be grown successfully outdoors in the South, once all risk of frost has passed; also grows well in a glasshouse or polytunnel. Indeterminate.

Price: £2.90 for 10 seed.

ITEM: 3239 | CONSUELO F1

Another exceptional addition to our range of phytophthora-resistant tomatoes. The large cherry sized fruit, weighing 15-20 grams, have exceptional flavour with a Brix level in the range 9-11. Clusters of 25-30 fruit are borne on long trusses, with each plant yielding up to 150 tasty, bite-sized tomatoes. Remarkable variety combines excellent outdoor performance in Northern Europe with good blight resistance.

Price: £2.90 for 10 seed

ITEM: 3240 | PAOLINE F1

Rediscover the taste of gardening! The new reference to grow in the garden. An indeterminate variety with a lovely round shape weighing between 130 and 160 grams. Combines taste quality, and productivity and it's easy to grow. One additional huge advantage, it resists late blight.

Price £3.00 for 10 seed

TURNIPS**ITEM: 3154 | TOKYO CROSS F1**

One of the quickest varieties to mature, producing pure white round tops. Harvest the turnips when small for the best flavour. Full of hybrid vigour and will be ready to eat in ten weeks after sowing.

Price: £1.90 for 200 seed

ITEM: 3155 | SWEETBELL F1

An introduction from the same breeder as Sweet Candle carrot. Bred in Japan with a fantastic Super Sweet flavour, the sweetest turnip I have ever eaten. Pure white skin with a lovely pale purple splash around the shoulder.

Price: £1.90 for 200 seed

Delivery dates will be from late February to mid-March depending on weather conditions and growth rate. See Item 1006 for full details.

Price per pack of 10 including Post and Packing: £49.00

**ITEM: 1001 | PETER GLAZEBROOK WORLD RECORD ONION PLANTS**

Owing to extreme heat and dry conditions, I am unable to supply plants this year owing to Peter having a very small number of seed.

ITEM: 1011 | OWN SEED LARGE EXHIBITION ONION PLANTS

Probably the best onion you can grow for exhibition with the capability also to grow to a very large size with uniform shape. This re selection has won many shows over the years. Delivery dates will be from mid to late March depending on growth rate. See Item 1001 for full details.

Price per pack of 10 including Post and Packing: £49.00.

**ITEM: 1036 | EVENING STAR CELERY - Grown on from a mid-January sowing posted out from late April**

This is a service to help those growers who want a better start with their plants without the bother of germination and the extra heat required. They will be sent out as young plants fully rooted in large Jiffy 7 pellets and ready for potting on into at least a 4-inch pot. You really can't fail to get the best start with these. Sold in Units of 10 plants well protected in strong cardboard boxes to alleviate as much damage as possible through the delivery system. Delivered next day.

Price per pack of 10 including Post and Packing: £33.00

**ONION PLANTS
(For The Under 250 Grams Classes)**

These onions are grown for those who have no heated facilities for early growth themselves. Sown early January they will be ready for posting as strong seedlings from approximately end of February to mid-March. On receipt, these plants must be grown in a heated greenhouse with a minimum night temperature of 50°F. Supporting the plants by using the plastic plant support clips, Item 0005, will ensure that they root faster and grow upright. For full description of each cultivar, check under seed list. Sold in packs of 10.

ITEM: 1012 | VENTO F1 ONION PLANTS

Price per pack of 10 including Post and Packing: £15.00

**ITEM: 1013 | TOUGHBALL F1 ONION PLANTS**

Price per pack of 10 including Post and Packing: £15.00

**ITEM: 1014 | BONUS F1 ONION PLANTS *NEW***

Price per pack of 10 including Post and Packing: £15.00

**CELERY SEEDLINGS (January Sowing)**

Dispatched in flat plastic containers, they will be well-rooted and a minimum of 1 inch tall. Pot them into small pots using John Innes N°1 or a suitable Multi Purpose Compost and continue potting them as growth increases. Initially, these plants should be grown in a heated greenhouse with a minimum night temperature of 50°F, preferably, with some bottom heat for the first few weeks to re-establish the root system early. Dispatched mid-late February

ITEM: 1019 | EVENING STAR F1 HYBRID SEEDLINGS

From mid-January sowing

Price per pack of 10 including Post and Packing: £17.00

ITEM: 1020 | MORNING STAR F1 HYBRID SEEDLINGS

From mid-January sowing

Price per pack of 10 including Post and Packing: £17.00

TOMATO PLANTS

ITEM: 1025 | MAISEY F1 (Tomato Plants) Sown on or around the 1st of March.

Named in gratitude for the beautiful exhibits of tomatoes that Charles Maisiey staged over the years. Lovely and round with a good calyx. Thin trusses down to 5 or 6 to get good sized specimens. Grown on in jiffy 7 pellets and sent out during mid-April in strong plastic blister packs (the exact timing will depend on the rate of growth which is dependent on weather conditions at the time.) On arrival they should be potted on into 4 inch pots. Protect from frost if forecasted.

Sold in packs of 5 @ £15.50 including Post and Packing

ITEM: 1030 APERO F1 (Tomato Plants)

This is a winner in the small tomato class with its bright shiny skin sure to attract the judge's eye. A cherry plum tomato shape that produces the finest tasting tomato that are perfect in pots on the patio or in the greenhouse. Grown on in jiffy 7 pellets and sent out during mid-April in strong plastic blister packs (the exact timing will depend on the rate of growth which is dependent on weather conditions at the time.) On arrival they should be potted on into 4-inch pots. Protect from frost if forecasted.

Sold in packs of 5 @ £15.50 including Post and Packing

ITEM: 1029 | Y DDRAIG GOCH F1 (Tomato Plants)

A cross made with Goldstar seed from Charles Maisiey and the proven show winner Cedrico that's no longer available. A vine ripe variety with good flavour and possessing a large calyx. Grown on in jiffy 7 pellets and sent out during mid-April in strong plastic blister packs (the exact timing will depend on the rate of growth which is dependent on weather conditions at the time.) On arrival they should be potted on into 4 inch pots. Protect from frost if forecasted. Sold in packs of 5.

Price per pack of 5 including Post and Packing: £15.50

OTHER PLANTS

ITEM: 1026 | GIANT MARROW (Only available as plants)

These plants have been introduced for those growers who may be finding it difficult to germinate the seed or perhaps who don't want to spend money on heating costs. These are plants from our Re Selected Giant Marrows. Sold in the largest size Jiffy seven pellets and sent out from mid-May in strong Plastic Blister packs. On arrival they must be potted up and initially offered protection from frost. Sold in packs of 5.

Price per pack of 5 including Post and Packing: £17.00

ITEM: 1027 | FAULDS PARSLEY SEEDLINGS

Undoubtedly the best parsley of the lot and unbeatable on the Show Bench, a very old Heritage variety of superb quality, regularly exhibited north of the Border. Excellent for enhancing vegetable displays. A curly moss-type parsley with extremely tight fronds. Posted during Late March/early April when about an inch tall.

Price per pack of 10 seedlings including Post and Packing: £14.99

ITEM: 1031 | GIANT PUMPKIN PLANTS (Re selection from Atlantic Giant) Not available as seed

These are plants from our own Re Selected Giant Pumpkins. Sold in the largest size Jiffy seven pellets and sent out from mid-May in strong Plastic Blister packs. On arrival they must be potted up and initially offered protection from frost. Sold in packs of 5.

Price per pack of 5 including Post and Packing: £17.00

SHALLOTS AND ONION SETS

ITEM: 5002 | JERMOR SHALLOTS

Another top-quality French Shallot and a winner on the show bench and probably one of the best for culinary use as well. A taller type of shallot than Aristocrat, and certainly worth growing. All orders will be dispatched during November. The shallots are hand-picked for quality. Sold in packs of 10.

Price per pack including Post and Packing: £14.00

ITEM: 5008 | GOLDEN GOURMET SHALLOTS

A Dutch yellow variety of shallot that produces large bulbs with a lovely golden-brown skin. Whilst their flavour is mild enough for them to be used raw in salads, they are also wonderful in cooking and of course pickling! With its excellent resistance to bolting and good keeping qualities this heavy yielding variety really is hard to beat. RHS award of merit. Sold in packs of 20.

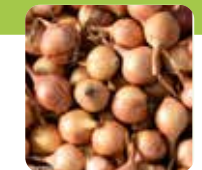

Price per pack including Post and Packing: £12.00

ONION SETS

ITEM: 5003 | STURON

A popular culinary variety noted for a well-shaped, round bulb with an excellent flavour. Medium sized, with thin necks they will store well right through the winter to March under the right conditions. For best results apply a dressing of my Leek & Onion fertiliser Item 0065 which I have formulated to the correct nutrient balance of NPK plus additional magnesium at 4oz per square yard prior to planting. Sold in packs of 300 grams (approx. 75 sets)

Price per pack including Post and Packing: £11.00

ITEM: 5004 | RED BARON F1

An excellent storing variety which is also consistently winning in the classes for red onions. For the earlier shows, start them off in Plantpak 24's for exhibiting from early to mid-August. Posted from early February, the sets will be firm, disease free and handpicked for reasonably even size. Sold in packs of approximately 300 grams (approx. 75 sets)

Price per pack including Post and Packing: £11.00

**ITEM: 5005 | HERCULES**

A yellow to brown round bulbs with strong flavour that keeps exceptionally well. For the earlier shows, start them off in Plantpak 24's for exhibiting from early to mid-August. Sold in packs of approximately 300 grams (approx. 75 sets)

Price per pack including Post and Packing: £11.00

**ITEM: 5006 | CENTURION**

The bulbs have a lovely deep brown colour when properly harvested and globular in shape. Earlier than most other sets for the early shows. I start them off in Plantpak 24's in March or small pots for exhibiting from early to mid-August. Posted from early February onwards, the sets will be firm, disease-free and hand-picked for reasonably even size. One of our bestselling lines. Sold in packs of approximately 300 grams (approx. 75 sets)

Price per pack including Post and Packing: £11.00

**ITEM: 0002 | GIFT VOUCHERS**

A perfect Birthday or Christmas gift for a family or friend. The tokens can be redeemed for any amount over £10.00 from the current catalogue. Each one will have a personal message on the voucher from Medwyn.

Sold in units of £10.00

**ITEM: 0003 | ZINC STARCH AND TALC**

This is the powder that's used to dry out the skins of exhibition onions and shallots. After lifting the onions or shallots, remove the outer skins to leave one unblemished last skin. Wash in tepid water with a drop of washing up liquid and dry the bulbs with some soft tissue or towelling. Apply the powder on to the onion once with a soft pad or cotton wool outdoors or in an airy room. As a precautionary measure, do not breathe in the powder. The powder will uniformly dry the outer skin giving the onion a lovely light brown colour. Packed in re sealable polythene bags with each pouch weighing 70 grams, enough for a couple of seasons.

Price £7.90 per 60 grams including Post and Packing

**ITEM: 0004 | JIFF CLIP**

A gardening aid that I just wouldn't be without, it's the most useful and time saving little piece of wire that you will ever use. Saves you tying your canes to wires with string, just let this simple Jiff Clip do the job for you. One clip, that's all you need to keep a cane firmly attached to any supporting wire in seconds. Made from galvanized spring steel to last you a lifetime. Sold in packs of 20.

Price £9.90 per pack of 20 including Post and Packing.

**ITEM: 0005 | PLASTIC PLANT SUPPORT CLIPS – 100MM**

Another indispensable gardening aid that I simply wouldn't be without. An invaluable clip for supporting many plants. I use them regularly for supporting the flags on my leeks, leaves of my onion plants and celery as well as other veggies. Re usable year after year, they have an unlimited use in both the greenhouse and garden. Clips on to the regular split canes. Sold in packs of 100.

Price £18.50 per pack of 100 including Post and Packing.

**ITEM: 0012 | VELCRO PLANT TIES**

This product gets more popular year on year because of its usefulness and versatility, a fantastic handy to cut ties from a roll that you can use on numerous plants throughout the garden. Cut to any length you want and use them for tying on Trellis or Canes, weather resistant, strong and durable. Perfect for tomatoes, cordon grown Peas, Sweet Peas and many other uses. Roll is 5 metres long.

Price £5.70 per roll including Post and Packing.

ITEM: 0015 | FOUR INCH WHITE PLASTIC PLANT LABELS

Where would we be as gardeners without this handy little label? Sold in packs of 100.

Price £4.25 per pack including Post and Packing.

**ITEM: 0028 | PERMANENT PEN FOR PLANT LABELS**

The best Permanent pen that I have found to write variety names on Plant labels (Item 0015). The ink is waterproof and weatherproof and though more expensive than most, will do the job much better.

Price £6.95 each

ITEM: 0507 | NATURAL RAFFIA

This is the best quality natural raffia 50 grams in weight with approximately 90 to a 100 strands a metre long. The only material that should be used to tie the necks of your onions, shallots etc.

Price £9.50 per pack including Post and Packing

**ITEM: 0035 | MEDWYNS POTATO POLYBAG Exclusive to Medwyn's**

These 500g black bags have been engineered specifically for us having more holes around the base therefore allowing more roots to penetrate to soil below offering you a better chance of having a heavier crop. The bags are 20 litres. These are the bags used now by many of the top growers.

Price £7.95 per pack of 5 bags

**ITEM: 0036 | MEDWYNS POTATO POLYBAG Exclusive to Medwyn's**

Price £15.99 per pack of 20 bags

ITEM: 0037 | MEDWYNS POTATO POLYBAG Exclusive to Medwyn's

Price £35.00 per pack of 50 bags

ITEM 0099 | ENVIROMESH 2.6 metre wide sold by the metre

Protect crops from carrot fly, cabbage root fly, aphids, caterpillars etc using this fine nylon mesh. Place the Enviromesh directly over your crops and anchor securely in place with ground pegs or use to cover crop frames and cages. Plants will remain naturally watered and ventilated with this permeable netting. You can make your own light weight frames with roofing battens to cover your carrot beds

Price: £5.95 per Metre length

**ITEM: 0068 | GREEN SPLIT CANES 300MM (12 INCH) LONG.**

I wouldn't be without these canes, particularly useful when growing in the greenhouse. These are the canes I use together with our Plastic Plant Support Clips Item 0005 to support a variety of plants, in particular Leeks, Onions and Celery.

Pack of 100 canes £9.95 INCLUDING P&P

**ITEM: 0069 | AS ABOVE 600MM (24 INCH) LONG**

Pack of 50 canes £10.95

ITEM: 0098 | AS ABOVE 900MM (36 INCH) LONG.

Pack of 25 canes £14.99

ITEM: 0070 | BLACK AND WHITE POLYTHENE SHEET 1.8m wide (6ft) x 10m in length (32.8ft), gauge 85mu

This is the perfect material to cover your growing beds with if you are into exhibition onions, and hydroponic growing amongst many other things. Cover you bed over, white side up, and cut crosses in the polythene through which you plant your onions. The polythene keeps moisture in the bed, keeps the beds weed free and reflects light back on to the plant for increased growth. Please contact us if you require longer lengths than is listed below.

Price: £24.50

**ITEM: 0071 | AS ABOVE BUT 15M IN LENGTH (49.2 FT)**

Price: £31.00

ITEM: 0072 | AS ABOVE BUT 20M IN LENGTH (65.6 FT)

Price: £37.00

ITEM: 0501 | 20 LITRE BLACK HEAVY DUTY POTS

Heavy duty tall container with no handle. Diameter 33cm Height 33cm Strong and durable - Standard Colour Black. This Item will be sent out from the end of November onwards.

Price £3.25 per pot.

**ITEM: 0502 | 30 LITRE BLACK HEAVY DUTY POTS**

Heavy duty tall container with handles. Diameter 33cm Height 33cm Strong and durable - Standard Colour Black. This Item will be sent out from the end of November onwards.

Price £4.25 per pot.

**ITEM: 0503 | 50 LITRE BLACK HEAVY DUTY POTS, Description as above.**

Price £8.15 per pot.

ITEM: 0508 | 2 PLY GREEN TWINE

Top quality two ply green twine, 100 metres long, that's useful for most tying jobs in the garden.

Price: £7.99 per roll.

ITEM: 0509 | 3 PLY GREEN TWINE

Top quality three ply green twine, 120 metres long, a strong that's useful for most tying jobs in the garden.

Price: £9.95 per Roll.

**ITEM: 0039 | FLIT SPRAYER**

Flit Sprayer - Multi-use sprayer with brass nozzles and push-and-pull action— a must-have to add to your set of gardening tools are just what you need for all your spraying tasks around the garden. They fit any 1 or 2 litre soft drink bottle (not supplied) and great for a range of household jobs too.

Pesticide sprayer - for accurate and precision-spraying on pests and weeds without harming choice plants.

Indoor humidify – to create a fine spray of mist to up the humidity levels so they can take up surrounding moisture in the leaves and stems. Ideal for growing tender crops in greenhouses.

Household gardening – water plants growing at all heights; from knee-high ground covering flowers to the high branches of apple and pear trees.

Price £10.00 per item including Post and packing

AUTO POT GROWING SYSTEM

The AutoPot system is a globally successful product. They use no electric parts at all, relying simply on natural forces such as gravity and capillary action. As the Autopot uses gravity, the system can be set out in any shape you like. If you have a very long, narrow space, you can arrange the pots all in a line without problem. Most growers tend to place them in square or rectangular way. Post and Packing will be free on all Auto Pots systems.

ITEM: 0602 | EASY2GO KIT

Turn any gardening tray into an Auto Pot System. Assembled and installed with remarkable ease the easy2GO Kit relieves all the hassle of hand watering without the need for electricity, pumps or timers. This simple, self contained and entirely mechanical device can be used anywhere; in your home, greenhouse, conservatory or balcony. Inexpensive and flexible, this kit contains all fittings required to connect to a reservoir of your choice.

Price: £19.00

ITEM: 0603 | 4 POT SYSTEM – 4 x 15 Litre Pots
 (you can add as many pots as you want to fit your own space.
 Please ring or email for quotation)

The 4Pot System combines ease of use and minimal labour with the capacity to grow exquisite, fruitful, and even prizewinning plants. Popular with hobby gardeners, kitchen gardeners and NVS Champions alike, the fully automated, power-free, gravity-fed 4Pot System takes the hassle and strain out of watering. This allows you to concentrate on cultivating larger plants to achieve their full potential.

With no need for electricity, pumps, or timers you are free from the constraints of a power source. This makes the 4Pot System wonderfully flexible and gives you the option to arrange or move pots virtually at will. Pots can be added and removed with a minimum of fuss. Each pot contains its own valve through which the plant draws water and nutrients. Individual plants can therefore control their own feeding requirements making the system truly responsive.

Price: £85.00

ITEM: 0604 | EASY 2 GROW KIT – 2 x 8.5 litre pots
 (you can add as many pots as you want to fit your own
 space. Please ring or email for quotation)

Trusted by our closest friends, esteemed hobby growers and our biggest commercial clients alike, easy2grow irrigates effortlessly to produce superlative fruit, vegetables and flowers.

You too can create the finest floral fancies and veritably venerable vegetables using this simple, power-free system. Beloved for its simplicity and efficiency, the easy2grow Kit can be set up practically anywhere as it requires neither electricity nor running water. The tray contains an AQUAvalve through which the plant draws water and nutrients.

Price: £39.99

**ITEM: 0605 | 1 LITRE AUTOPOT ALL PURPOSE PLANT FOOD**

A mineral feed of the highest quality, developed through years of experience and tailored to complement our watering systems; easy2grow Liquid Feed is everything we could ask for in a nutrient. NPK 2.0-1.3-2.4

Price: £9.99 – 1 LITRE

**ITEM: 0606 | AS ABOVE in 5 litre containers**

Price: £29.99 – 5 LITRES

ITEM: 0609 | TRAY2GROW SYSTEM

Tray2Grow is the completely automated, completely power-free system that offers you five ways to feed and water your plants. Seed trays, small pots, grow bags, micro herbs, and planters, can each be accommodated, making this the most versatile product in the AutoPot range and one of the most versatile irrigation systems period. Reservoir not included

Price: £59.99

FERTILISERS BIO STIMULANTS AND ACTIVATORS

We have a New FRASS product Exclusive to Medwyns of Anglesey which will only be available online for 2025/2026 and in our Catalogue for 2027/2028

ITEM: 0006 | SB PLANT INVIGORATOR - 1 LITRE

A product that's become increasingly popular over the last few years. Makes 1,000 litres of mixture when diluted as this is super concentrated. This is an Environmentally Friendly Growth Stimulant and Pesticide with no harvest interval – you can eat the crop the same day as you sprayed them. Controls a wide range of important pest species including Whitefly, Aphids, Spider Mite and Mealybug and because of its unique physical mode of action, these pests will not become resistant to the product. The product is Biodegradable and can be used on all edible and ornamental crops. Dose rate 1ml per litre of water.

Price £50.49 per litre including P&P.

ITEM: 0007 | SB PLANT INVIGORATOR 250ML

As Item 0006 but makes 25 litres when diluted. Dose rate 10ml per litre of water.

Price £13.99 per litre including P&P.

ITEM: 0008 | SB PLANT INVIGORATOR 500 ML

As Item 0006 but makes 50 litres when diluted. Dose rate 10ml per litre of water.

Price £19.99 per litre including P&P.

ITEM: 0009 | MEDWYN'S LIQUID GROWMORE 7:7:7

A highly efficient, concentrated liquid fertiliser. It is simply mixed with water and then applied via watering can around the base of growing plants in the garden and/or in the greenhouse. It provides all the nutrients needed for healthy growth and is suitable for all types of plants including fruit, vegetables and flowering varieties. It should be applied generously on a weekly basis throughout the spring and summer.

Price £11.99 per 500ml bottle including P&P.

ITEM: 0010 | MEDWYN'S LIQUID GOLD (Nutri-mate)

Use as a foliar or soil and compost treatment. Increases root development ensuring maximum utilisation of all available nutrients. Excellent for drought tolerance by reducing transpiration through the leaves. A totally organic product. Sold in 500ml bottles. Growers claim amazing results using this product as part of their feeding programme.

Price £15.15 per 500ml bottle including P&P.

ITEM: 0011 | MEDWYN'S LIQUID TOMATO FEED (Nutri-mate) 500ML

Our own tomato feed with an NPK level of 5:5:10 plus trace elements with added Fulvic acid. This is a unique tomato feed giving excellent results. The added Fulvic acid by way of Liquid Gold (Nutri-mate) assists in transporting all the nutrients around the plant more efficiently. Also ideal for feeding potatoes in pots or bags as well as Chillies and sweet Peppers.

Price £11.99 per 500 ml bottle including P&P.

ITEM 0106 | HUMIC ACID LIQUID 20-0-10 + Seaweed *NEW*

Humic Acid improves soil structure, increases nutrient uptake, and stimulates root development. The general application rate is 2 to 5ml per litre of water as a soil drench; apply at the base of the plant every two to four weeks during early growth. Humic Acid is highly efficient when applied directly to the soil, where it can interact with the root zone. It enhances nutrient uptake by acting as a natural chelator, unlocking tightly bound micro nutrients in the soil, stimulating root branching, and increasing overall fertiliser efficiency.

It can be used as a foliar spray at up to 2ml per litre of water, mist spray during cloudy days or early morning to avoid leaf scorch.

Price £5.60 per 500ml bottle including P&P.

ITEM: 0107 | BIO LIFT 500ml *Exclusive to Medwyn's

Bio Lift is a Biological inoculate for the soil. It assists suppression of root diseases like fusarium, pythium, rhizoctonia and all forms of wilt as well as parasitic nematodes. It assists in the suppression of all air borne moulds and fungal diseases. It enhances germination. It promotes quicker healthier root development. It unlocks and releases plant nutrients from the soil naturally. 1 bottle dilutes to make approx. 500 litres which for a general application will treat up to 500 sq. Metres. Bio Lift is a Natural Disease Suppressant that complies with organic certification EU-Bio VO 2092/917 EC 834/2007

Price £24.99 for a 500ml bottle including P&P.

0024 | CALCIUM NITRATE – (Excellent for controlling the incidence of heart rot in celery and Scurf on Potatoes.)

Calcium nitrate, also called Norwegian saltpetre is the inorganic compound with the formula $\text{Ca}(\text{NO}_3)_2$. This colourless salt absorbs moisture from the air and is commonly found as a tetra hydrate, Put the lid back on the little bucket as soon as you have finished with it. It's mainly used as a component in fertilisers. (15%N, 19% CaO) combines quick acting Calcium and Nitrogen.

Price £10.50 per 0.5 kg tub including P&P.

ITEM: 0016 | MEDWYNS POWDERED GOLD (Nutrimate)

Nutrimate contains very high levels of Humic and Folic acids. These are naturally occurring elements that improve the way nutrients and your plants work. The Humic acid quickly locks available nutrients into the soil or compost reducing leaching. The Folic acid allows for better uptake and use of nutrients in the plants. For a start, it's It is earthy, rich, dark and 100% organic. Apply at 1 ounce per plant or 1 ounce per yard run of soil or at 3 ounces to the square yard

Price £9.99 per 1kg tub including P&P

**ITEM: 0017 | MEDWYNS POWDERED GOLD (Nutrimate)**

As above in 10kg bucket £36.50

ITEM: 0018 | MEDWYNS POWDERED GOLD (Nutrimate)

As above in 20kg bag £62.99

ITEM: 0026 | OSMOCOTE EXACT STANDARD (Slow Release Fertiliser 5-6 months)

The professional range of controlled release nutrients from the Scotts Professional Range. Osmocote is an organic resin coated fertiliser with every granule containing the following NPK – 15+9+12 which is released slowly over the growing period up to 6 months. Plants grow better because they get the nutrients they require when they want it. The leaching of nutrients is minimised by the resin coating.

Price £18.99 per 1kg Sealed pouch including P&P

ITEM: 0027 | OSMOCOTE EXACT HIGH K (High Potash Slow Release Fertiliser 5-6 months)

As above but with a high potassium level, this is ideal for fruiting plants such as Tomatoes Peppers Chillies and many other vegetables – NPK 11:11:18.

Price £18.99 per 1kg Sealed Pouch including P&P

ITEM: 0029 | LIQUID FEED - PETERS PROFESSIONAL 10+52+10

A feed that will give you the same results as the top professional growers. Contains the Scotts innovation - improved M-77. The Scotts Innovation optimises the availability and absorbability of all nutrient elements according to the principle 'It's not just about what you offer a plant; it's primarily about what the plant absorbs' M-77 unlocks the roots, increasing the effectiveness of the nutrients. All four listed are superb formulations. Apply at 1 gram per litre this can be marginally increased if you so wish

Price £15.55 per 500 grams Pkt including P&P

ITEM: 0030 | LIQUID FEED - PETERS PROFESSIONAL 20+20+20

Price £15.55 per 500 grams Pkt including P&P

ITEM: 0031 | LIQUID FEED - PETERS PROFESSIONAL 9+9+36 Apply at 1 gram per litre

Price £15.55 per 500 grams Pkt including P&P

ITEM: 0061 | LIQUID FEED - PETERS PROFESSIONAL 21+7+21 Apply at 1 gram per litre

Price £15.55 per 500 grams Pkt including P&P

ITEM: 0032 | VERMICULITE FINE GRADE 6 LITRE BAG.

A fine grade and regularly used by growers to lighten and aerate composts. Used extensively in all carrot and parsnip mixes. Also particularly useful for covering seeds and taking cuttings. Granule size is 1mm to 3mm. Water holding capacity is 419ml of water per litre of Vermiculite. Can be mixed up to 50% by volume of Vermiculite with the growing media.

Price £9.99 per bag.

ITEM: 0033 | VERMICULITE FINE GRADE 20 LITRE BAG.

£15.99 per bag.

ITEM: 0076 | VERMICULITE FINE GRADE 100 LITRE BAG.

Price £37.50 per bag.

ITEM: 0038 | JIFFY SEVEN PELLETS 32MM

These are the pellets we use to grow our Premium plants in. Made from Fine grade peat with added nutrients. The pellets are supplied in a dried compressed form allowing the grower to store un-used plugs until required next time. Simply soak the plugs in water and sow your seed, cuttings or seedlings directly into them.

Price £9.75 for 50 Pellets including P&P

ITEM: 0095 | VERMICULITE SUPERFINE GRADE 6 LITRE BAG.

This is the finest grade available and perfect for covering seeds and adding to exhibition mixes.

Price £9.99 per bag.

ITEM: 0096 | VERMICULITE SUPERFINE GRADE 20 LITRE BAG.

Price £18.99 per bag.

ITEM: 0097 | VERMICULITE SUPERFINE GRADE 100 LITRE BAG.

Price £39.35 per bag.

ITEM: 0111 | PERLITE 100 LITRE BAG

Perlite can be used for soil conditioning – increasing aeration and drainage in heavy soils. Loosens and aerates soil and compost to encourage root development. This has Neutral PH and is a sterile growing medium derived from volcanic rock, It aids nutrient uptake and improves plant health and growth.

Price £24.50 per 100 Litre bag.

ITEM: 0112 | PERLITE 20 LITRE BAG

Price £11.50 per 20 litre bag.

ITEM: 0040 | MEDWYNS GROWMORE FERTILISER 7:7:7

Growmore is a multi-purpose plant food with an even balance of nutrients to feed all the plants in your garden, with an NPK ratio of 7-7-7. When preparing Beds, Borders and Vegetable Plots, scatter 140g per sq metre (4oz per sq yard) onto the soil 7–10 days before planting or sowing, fork well in.

5kg bag £9.00

ITEM: 0041 | AS ABOVE IN 10KG BAG £12.00**ITEM: 0042 | AS ABOVE IN 20KG BAG £23.00****ITEM: 0043 | MEDWYNS POTATO FERTILISER 6:10:10**

A fertiliser with the right ratio to grow bumper potato crops, a specially formulated granular fertiliser with essential nutrients in the correct balance to give tastier and increased yields of quality potatoes.

Price 5kg bag £11.50

ITEM: 0044 | AS ABOVE IN 10KG BAG £19.75**ITEM: 0045 | AS ABOVE IN 20KG BAG £35.28****ITEM: 0046 | MEDWYNS COMPLETE BASE FERTILISER WITH TRACE ELEMENTS 5.3:7.5:10+TE**

This is the one to use when preparing all your beds in the spring. Has all the nutrients that plants need to grow to their optimum. Not only does it have an excellent NPK ratio it also has the required level of trace elements to make your soil more receptive to the roots. Top Chrysanthemum grower Ivor Mace recommends 'Used for preparing vegetable beds & as a base fertiliser for making your own composts, also as a chrysanthemum number 1 can be used on pots of late flowering chrysanthemums at one teaspoonful per week until the plants come into bud'.

Price 5kg bag £14.50

ITEM: 0047 | AS ABOVE IN 10KG BAG £25.00**ITEM: 0048 | AS ABOVE IN 20KG BAG £35.00****Item 0109 | MEDWYN'S FRASS *NEW***

'Mixing Frass into Your Potting Mix Getting a new batch of pots or containers ready for the season? Work our Insect Frass through your soil or soilless mix at 3-5g per litre before you plant. Mix it in well so it's spread evenly through the medium — this gives young roots steady access to nutrients right from the start.

Top Dressing Through the Growing Season Established plants benefit from a regular top-up. Sprinkle 10g per 15-20L pot around the base, and water well. Repeat every 2-4 weeks through the growing season, adjusting to how your plants are performing. Feeding Seedlings and Cuttings Young plants need a gentler touch. When potting on seedlings or cuttings — particularly into coco coir — use a lighter rate of 1-2g per litre. This lets them settle into their new home without overloading them, so they can build strength gradually. See our [Online shop for further information.](#)

Price –£7.00 per 500g

ITEM 0110 – As Above in 1.75 Kg £21.95

ITEM 0110 – As Above in 3.5 Kg £32.95

ITEM: 0052 | MEDWYNS FISH BLOOD AND BONE 5:5:6

The most popular of all the organic base fertilisers. This traditional style fertiliser, still favoured by many gardeners, provides the three major nutrients needed for strong, healthy growth. Can be applied prior to sowing or planting and as required throughout the growing season. 100% Organic.

Price 5kg bag £8.75

ITEM: 0053 | AS ABOVE IN 10KG BAG £13.50**ITEM: 0054 | AS ABOVE IN 20KG BAG £20.50****ITEM: 0055 | MEDWYNS GENUINE CALCIFIED SEAWEED
(Exclusively sourced)**

This is the real calcified seaweed and not a substitute and sourced outside of Europe where it's legal to harvest it. This is always part of the top exhibitor's potato mixture as well as used in bore hole mixtures for the tap roots. It has been specifically ground down to my specification and is as fine as is possible to get it so that it quickly gets to work within your soil or compost mixture.

Price 5kg bag £13.99

ITEM: 0056 | AS ABOVE IN 10KG BAG £22.50**ITEM: 0057 | AS ABOVE IN 20KG BAG £36.50****ITEM: 0062 | GARDEN LIME**

An element that is so essential for every vegetable grower in order to maintain the correct level of lime within the soil. I recommend having a soil test every year to ascertain what your PH level is.

Price 5kg bag £6.99

ITEM: 0063 | AS ABOVE IN 10KG BAG £9.75**ITEM: 0064 | AS ABOVE IN 20KG BAG £16.75****ITEM: 0073 | MYCORRHIZA ROOT PLUS**

A product for maximising the output of your soil and Growing Mediums with real gains in crop yield. Root+ contains 18 species of mycorrhiza (containing both endo- & ecto-mycorrhiza). 6 cultured and tested strains of microbes. An N-P-K ratio of 3-3-3 from organic Base and mineral nutrients. Adding Root+ at planting time will help develop a huge secondary root system using Mycorrhiza. Application rate 150g per 70lt of compost or 2.5kg per 50 m2. Root+ is not compatible with Brassicas and Beetroots.

PRICE: £19.90 per 500 gram container including P&P

ITEM: 0080 | BONE MEAL

Medwyns sterilised Bone Meal is a slow release organic fertiliser to encourage root development. Bone Meal is an organic fertiliser which provides both, nitrogen phosphate and potash in the following ration 3.5- -18.0 - 5.0 three elements essential for healthy plant growth. This slow, steady release of nutrients over a long period make Bone meal an ideal fertiliser for the preparation of leek and onion beds.

Price 5kg bag £12.25

ITEM: 0081 | AS ABOVE IN 10KG BAG £16.20**ITEM: 0082 | AS ABOVE IN 20KG BAG £29.25****ITEM 0083 | SEAWEED MEAL**

An organic, natural soil conditioner that will encourage strong healthy growth all-round the garden. Seaweed Meal also encourages beneficial soil microbes and makes valuable humus; It's also rich in minerals and trace elements. Seaweed Meal is an ideal spring lawn dressing and also an excellent compost activator. Some exhibitors use this material in their bore hole mixes for carrots, parsnips etc. Use in Runner Bean trenches at the rate of 70gram per metre run of trench. Also used as a surface dressing which is raked into the soil prior to planting when growing a range of giant vegetables.

Price £25.74 for 5kg bag

ITEM 0084 | as above. Price £46.80 for 10kg bag**ITEM 0085 | as above. Price £82.00 for 20kg bag****ITEM: 0086 | SULPHATE OF POTASH (0:0:50)**

Fast acting source of potassium to facilitate development of healthy Vegetables fruit and flowers. Used extensively in the preparation of vegetable beds as well as in mixes for root crops, tomatoes etc.

Price 5Kg bag £12.50

ITEM: 0087 | AS ABOVE IN 10KG BAG £26.00**ITEM: 0088 | AS ABOVE IN 20KG BAG £48.50**

ITEM: 0092 | TRIPLE SUPERPHOSPHATE (Granular Form 0:46:0)

Triple Superphosphate typically contains 46% phosphate. A source of high Phosphorus that's vital for photosynthesis to occur, the process by which plants convert sunlight into carbohydrate molecules, i.e. sugars. Triple Superphosphate is a fruit and vegetable ripener, which will provide a fast action, long lasting supply of phosphorous for plants during the growing season.

Price 5Kg bag £16.35

ITEM: 0100 | DRIED BLOOD – 12%N

Rich in nitrogen, Dried Blood is a fast acting, 100% organic fertiliser that promotes above-the-ground growth and is especially beneficial when producing leaf crops such as lettuce, spinach and cabbage. It also makes an excellent top dressing for leafy plants grown in the greenhouse or conservatory. Dried Blood can be applied as a top dressing throughout the growing season or added to pot mixes for onions and leeks.

Price 5Kg bag £12.50

Slow-release fertilizer with high trace element content. A special formulation for the exhibition grower of leeks, onions, sweet peas, delphiniums and new rose beds, etc. Add to beds and trenches as soon as possible after the old crop is removed. Use over winter to prepare soil for exhibition standard flowers and vegetables (chrysanthemums, Dahlias, Leeks, Onions, Sweet Peas, Roses, etc.).

Price 5Kg bag £9.50

ITEM: 0104 | AS ABOVE IN 10KG BAG £17.95**ITEM: 0105 | AS ABOVE IN 20KG BAG £35.00****GROWING MEDIA**

Unfortunately, we are unable to deliver any quantity on a pallet, but you are of course welcome to pick up any amount from our Nursery. We can deliver a few bags via Courier that you can order online or by phone. Please note that Growing Medium prices may fluctuate from the time of going to print. If ordering, please email or phone to confirm prices.

ITEM 6014 | BIO BIZZ WORM – HUMUS

Worm humus, also known as vermicast, is the final product of decomposed material excreted by the king of the soil – the earthworm. This high-quality compost is made from pure worm castings that have been stringently lab-tested to ensure they don't contain any farmyard waste, landfill waste or compost.

Packed with water-soluble nutrients and bacteria, our Worm-Humus is a very nutritious organic fertilizer and excellent all-round soil improver. The earthworms that make our Worm-Humus are kept on a highly controlled and nutritious diet of rock minerals and organic potato peelings.

PRICE PER 40 LITRE BAG £19.99.

ITEM 6015 | EXHIBITION POTATO MIXTURE

Everris (Humax) has made an exhibition potato mixture to my own specification. Made with all the nutrients to produce top-quality Show potatoes. The compost comes in a 75 litre plain white plastic bag with the product name stamped along the edge of the bag. **THIS IS AN ORGANIC PEAT BASED PRODUCT**

PRICE PER BAG £10.80

ITEM 6019 | LEVINGTON F2S

A fine peat mixture specifically developed for seedlings and young plants to develop a strong rooting system, contains silver sand a very popular mix for exhibitors who use it as a major part of their bore hole mixtures for root crops.

Price per bag for collection £10.70

**ITEM 6029 | HUMAX MULTIPURPOSE ORIGINAL COMPOST
60 litre bags (CONTAINS NUTRIMATE)**

Probably the best Multipurpose compost you can buy. On recent trials we conducted it performed far superior to other Growing Media. Contains Silver Sand.

PRICE PER BAG FOR COLLECTION £8.28
